Federal Communications Commission Authorization and Evaluation Division 7435 Oakland Mills Road Columbia, Maryland 21046 USA

RE: FCC ID No. K6630373X3D

Model No. GX1200

Gentlemen:

We are requesting a Permissive Change Class II for our model number listed above with corresponding FCC Identifiers. These radios comply with the requirements of the FCC Part 80 regulations. The new models have no changes in the basic frequency determining circuitry including multiplication stages from the original models. This model complies with the ITU-R M493-13 requirements. In addition to the changes listed below, in order for the radio to complie with the ITU-R M493-13 requirements, we made a software upgrade.

The only change in the device is a modification to the oscillator (TCXO) from the resonator, the main software has been updated and the model number is changed. The printing on the front panelof the housing has also been changed; please see the external photo exhibit.

The user cannot program transmit frequencies using the equipment's external operation controls.

Should you require additional information relating to these products, please do not hesitate to contact us. Thank you and we would appreciate your consideration.

Best regards,

YAESU MUSEN CO., LTD.
