RE: FCC ID No. K6630483X3D
Model No. GX1700

Gentlemen:

We are requesting a Class II Permissive Change for our model numbers listed above with corresponding FCC Identifiers. These radios comply with the requirements of the FCC Part 80 regulations. The new models have no changes in the basic frequency determining circuitry including multiplication stages.

About the differences:

The only change to the device is the addition of the built-in GPS-Unit; the main software has been updated and the model number is changed.

The device cannot be programmed to transmit frequencies using the equipment's external operation controls.

Should you require additional information relating to these products, please do not hesitate to contact us. Thank you and we would appreciate your consideration.

Best regards,

Shigemitsu Takahashi
