Attention: Tim Harrington

Dear Tim:

In response to your correspondence:

1. The exhibit entitled "Test Report 2" has been modified and a revised report uploaded to remove the 25W.
2. Regarding the power levels:
  - a. The EMC/radio report has been modified to show 4.8 Watts. The 4.48 Watts was a typing error.
  - b. A revised tuning procedure has been uploaded to show the correct output power.

Should you have any questions or require any further information, please advise.

Regards,

Mario R. de Aranzeta
