FCC

SUBJECT: COMMUNICATIONS SUMMARY FOR VERTEX STANDARD CO.,
LTD. FCC ID: K66FT-8900R

To those concerned:

The FCC ID of this device, as it is certified, was changed during the application review at the request of the applicant. Key exhibits such as the FCC ID label sample, 731 Form, Confidentiality Request Letter and Users Manual were obtained and reflect the correct FCC ID. The remaining exhibits refer to an incorrect FCC ID. This is not a mistake and was taken into account during the application review. All documents submitted with this application are indeed for the device FCC ID: K66FT-8900R.

Sincerely,

Eric Dobson
Quality Manager
Timco Engineering, Inc.
