Hello Mort,

Wireless Telecommunications Bureau (WTB) says OK.

Regards,

Andy Leimer
FCC/OET/EAB

Hi Andy:

Thanks again for your great effort and quick reply in this matter.

Please bear with me...our client would appreciate a little more clarification.

Since VHF Marine and FRS can be combined, and FRS/MURS combo is okay, our client wants to know if Marine VHF, FRS and MURS can be combined.

Thanks again, very much, for your help. Mort Flom
