TO: MR. JOE DICHOSO  
FCC

SUBJECT: FCCID: K66VR-500

REFERENCE: EA94428

On the test report that was submitted it had measurement data for three(3) frequencies, 30, 200, 1250MHz. I used 30MHz as the low frequency because radiated emissions limits in S15.109 cover this range.

If you have any questions, please advise.
