

Radiodetection

A United Dominion Company

WESTERN DRIVE, BRISTOL BS14 0AZ, ENGLAND

**FCC ID: K68ND2099A - Application for Equipment Certification
Form 731 Confirmation Number: EA97107**

Amendment to Request for Material to be Withheld from Public Inspection

Introduction

Radiodetection has requested that the internal photographs of its ND2099-DF-HP-1 datasonde are withheld from public inspection. The FCC has stated that it is unable to withhold the internal photographs from inspection because the information will be available publicly when the product is manufactured.

Amendment to Request for Material to be Withheld from Public Inspection

As a result of the FCC's statement, Radiodetection withdraws its request that the internal photographs of the ND2099-DF-HP-1 be given confidential treatment.

The request for confidential treatment of the schematic circuit diagrams is maintained.

A revised detailed list of the confidential items is presented below:

<u>Drawing</u>	<u>Item</u>
ND2095.A	Micro PCB Schematic Diagram
ND2096.A	Output PCB Schematic Diagram
RS1088.A	Roll Sensor Track PCB Schematic Diagram
RS1089.A	Roll Sensor Segment PCB Schematic Diagram

For and on behalf of Radiodetection Limited,

Roger Lee
Principal Engineer (Approvals)
