Overall Assessment Letter for the: D303

FCC id: K7GD303

I have reviewed this application and find it compliant.

This is an application for a mobile GSM 850 / GSM 900 / DCS 1800 / PCS 1900 / WCDMA 2100 EGPRS USB data modem. The GSM 900, DCS 1800 and WCDMA 2100 bands are not relevant as they are not supported in North America.

Please note the following:

1: RF Exposure

The USB data modem is provided with a USB cable, length >20 cm and the user manual advises the user that the antenna must be installed to provide a minimum separation of at least 20cm from all persons.

3: USB Port

The client has issued a declaration that they will follow the DoC procedure for Class B Personal Computer Peripherals and the product has the appropriate FCC labelling.

I underwent the FCC RF exposure evaluation training at BABT in May 2006 and July 2007.

Yours sincerely

Allen Ferry
Compliance Manager
