To Whom It May Concern:

**PURPOSE OF CHANGE LETTER**  
**For the Model: T5570**

I hereby confirm that the model **T5570** is the altering original certified model of **T5500** for marketing purpose.

These models are identical in **RF circuit, electrical circuit, antenna, and mechanical & cosmetics designs**. The change is not intended for increasing transmitter output power.

The main modification is adding 83 CDCSS (Continuous Digital Controlled Squelch) codes and iVOX (Internal Voice On-off X'mitted = Transmission) features, and is changing the RF channels scan from base scan to priority scan as well as the PCB layout is changed. And the MCU is changed from TMP87C807 to TMP86CH47 in order to increase the ROM size and I/O pins.

Should you have any query, please feel free to contact me.
