**Cc:** Tommy Leung ES-HKG  
**Subject:** TCB certification K7GT8220, SAR report

Dear Jerry Liu,

After reviewing the SAR report No: EME-040937, I have the following question/comment:

According to the Supplement C, OET Bulletin 65 (Edition 01-01), page 38, the length and width of the phantom should be at least twice the corresponding dimensions of the test device, including its antenna. Does the phantom used meet this requirement?

Please justify.

Thanks  
David

Dear David,

Sorry for the late response.

Regarding to the issue of the phantom size, we will modify our report, and submit it to you tomorrow.

Should you have any question, please feel free to contact me.

Jerry / Intertek Taiwan

Hello Kevin and Jerry,

I sent you an urgent email on 11/22/04 regarding the size of the phantom.

According to the Supplement C, OET Bulletin 65 (Edition 01-01), page 38, the length and width of the phantom should be at least twice the corresponding dimensions of the test device, including its antenna. Does the phantom used meet this requirement?

Please justify.

Please reply ASAP.

If you have question, please call me: 650-463-2900 (b), 408-266-6442(h)

Thank you and Kind Regards,

David Chernomordik
