

Belkin International, Inc.

C2PC Request Letter

7/12/2024

Federal Communication Commission

Equipment Authorization Division, Application Processing Branch
7435 Oakland Mills Road
Columbia, MD 21048

To whom it may concern

FCC ID: K7SBPD006.

We hereby request C2PC Certification for the above mentioned FCC ID.

The reason for this request is:

Added the model no. BPD006V2 and updated the powerbank's software to support a wireless output maximum power of 15W in portable mode (no AC adapter). The original software limited the wireless output power to 7.5W without adapter. While connected to a power supply the wireless output has not changed and still supports up to a maximum output of 15W. Unauthorized parties are unable to make modifications to the transmitter as the transmitter is sealed in the enclosure and the firmware requires a special tool and procedure to update it.

Kind regards

Signed:

A handwritten signature in black ink, appearing to read "Zack Vogel", is written over a light blue rectangular background.
