Dear Tim,
For item 1,3,4 has been upload (block diagram, report)
For item 2:

This report is a duplicate of other report. Belkin components was authorized to sell the product owned by other company, and Belkin would like to use their own ID for such product. So, we duplicate the test report from the original one since the product is completely the same except the brand and model name.

Thanks,

Begards,
Vivi
