

DAP-2690

Version 2.01

*AirPremier™ N*

**Simultaneous Dual Band Access Point**

**Install Guide**

**Business Class Networking**

---

# Package Contents

DAP-2690 802.11n  
Access Point

Power Adapter

PoE Base Unit

Mounting Plate

Ethernet Cable

Console Cable

CD-ROM

**Note:** Using a power supply with a different voltage than the one included with the DAP-2690 will cause damage and void the warranty for this product. If any of the above items are missing, please contact your reseller.

# System Requirements

## Minimum System Requirements:

- CD-ROM Drive
- Computers with Windows®, Macintosh®, or Linux-based operating systems
- Installed Ethernet Adapter
- Internet Explorer version 6.0, Chrome 2.0, Safari 3.0, or Firefox 3.0 and above

---

# Hardware Overview

## LEDs

**5 GHz** - When lit, the access point is operating at 5GHz. This light will blink when there is wireless traffic.

**2.4 GHz** - When lit, the access point is operating at 2.4GHz. This light will blink when there is wireless traffic.

**LAN** - Solid light when the Ethernet port is connected to a working port, such as a router or switch. The light will blink when there is traffic through LAN port.

**POWER** - The light will blink during boot up. Once solid, the access point is ready.

---

# Installing the Hardware

\* 2.4GHz antenna connectors are located on the bottom of the access point.

---

To power the access point, you can use one of the following 3 methods:

**Method 1** - Use if you have a PoE switch.

**Method 2** - Use if you do not have a PoE switch and do not have a power outlet near the location of the access point.

**Method 3** - Use if you do not have a PoE switch and have a power outlet near the location of the access point.

### Method 1

1. Connect one end of your Ethernet cable into the LAN (PoE) port on the DAP-2690.
2. Connect the other end into one port on a PoE switch.

---

## Method 2

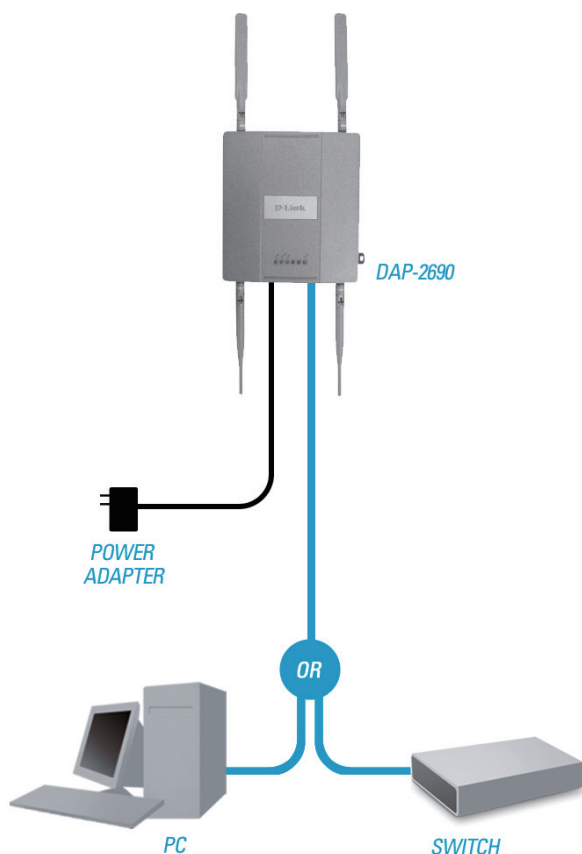

1. Connect one end of an Ethernet cable into the **Data In** port on the PoE base unit and the other end into one port on your switch, router, or computer.
2. Connect one end of an Ethernet cable into the **P+Data Out** port on the PoE base unit and the other end into the **LAN (PoE)** port on the DAP-2690 access point.
3. Use the supplied power adapter. Connect the power adapter to the **Power In** receptor on the PoE adapter.
4. Connect the power cable to the power adapter and then connect the other end into a power outlet.

---

### Method 3

1. Connect one end of your Ethernet cable into the **LAN (PoE)** port on the DAP-2690 and then connect the other end to a switch, router, or computer.
2. Use the supplied power adapter. Connect the power adapter to the Power receptor on the DAP-2690 access point.
3. Connect the power cable to the power adapter and then connect the other end into a power outlet.

---

# Mounting Plate Assembly

**Step 1:** Insert the provided wall anchors in the wall where the mounting plate will be attached.

**Step 2:** Use the provided screws to secure the mounting plate on the wall.

---

**Step 3:** Attach the remaining screws securely to the back of the DAP-2690.

**Step 4:** Attach the DAP-2690 to the mounting plate.

---

**Step 5:** Slide the DAP-2690 down into the grooves on the mounting plate to secure it to the plate.

# Your Setup is Complete

When you have completed the steps in this Installation Guide and configured your for your network, your network should look similar to this:

To setup and manage the DAP-2690 from a computer, use one of the following methods:

1. Connect a straight through Ethernet cable between the access point and your computer.
2. Connect the access point to a switch or router and use a computer from a computer that is also connected to that switch or router.

\* Maximum Wireless signal rate derived from IEEE 802.11n (draft 2.0) specifications. Actual data throughput will vary. Network conditions and environmental factors, including volume of network traffic, building materials and construction, and network overhead lower actual data throughput rate.

---

## Industry Canada statement

This device complies with RSS-210 of the Industry Canada Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Ce dispositif est conforme à la norme CNR-210 d'Industrie Canada applicable aux appareils radio exempts de licence. Son fonctionnement est sujet aux deux conditions suivantes: (1) le dispositif ne doit pas produire de brouillage préjudiciable, et (2) ce dispositif doit accepter tout brouillage reçu, y compris un brouillage susceptible de provoquer un fonctionnement indésirable.

### Caution :

(i) the device for operation in the band 5150-5250 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems;

(ii) the device must comply with the e.i.r.p. limits specified for point-to-point and non point-to-point operation as appropriate.

### Avertissement:

Le guide d'utilisation des dispositifs pour réseaux locaux doit inclure des instructions précises sur les restrictions susmentionnées, notamment:

(i) les dispositifs fonctionnant dans la bande 5 150-5 250 MHz sont réservés uniquement pour une utilisation à l'intérieur afin de réduire les risques de brouillage préjudiciable aux systèmes de satellites mobiles utilisant les mêmes canaux;

(ii) le dispositif doit se conformer à la limite de p.i.r.e. spécifiée pour l'exploitation point à point et non point à point, selon le cas.

---

### **Radiation Exposure Statement:**

This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

### **Déclaration d'exposition aux radiations:**

Cet équipement est conforme aux limites d'exposition aux rayonnements IC établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec un minimum de 20 cm de distance entre la source de rayonnement et votre corps.

## **以下警語適用台灣地區**

經型式認證合格之低功率射頻電機，非經許可，公司、商號或使用者均不得擅自變更頻率、加大功率或變更原設計之特性及功能。

低功率射頻電機之使用不得影響飛航安全及干擾合法通信；經發現有干擾現象時，應立即停用，並改善至無干擾時方得繼續使用。前項合法通信，指依電信法規定作業之無線電通信。低功率射頻電機須忍受合法通信或工業、科學及醫療用電波輻射性電機設備之干擾。

5.25 ~ 5.35GHz 限室內使用

---
