Date: 2020-07-07
Cover Letter for re-use of Test Data

To Whom It May Concern:

The initial application has been granted according to 47CFR Part 15.407 for FCC ID: KA2WL8630APA1; Granted on 05/13/2020.

The new equipment to be granted in this new application is FCC ID: KA2BAX2830PA1, the two applications are identical in hardware with only two differences as listed below:

1. Change housing
2. Add Cloud Wi-Fi to the original software function

The changes described above do not affect the radio characteristics (802.11 a/b/g/n/ac/ax) of the equipment. Consequently, radio test data retrieved from the initial application FCC ID: KA2WL8630APA1 can be re-used for the FCC ID: KA2BAX2830PA1 equipment.

However, based on our knowledge and our engineering judgment of the device design, the changes made, the format and amount of spot-check test data are decided as below,

1. Sample amount: 2
2. Spot-check rule part, frequency band and test items

Sample A		
FCC Rule Part	Frequency Band	Test Items
FCC Part 15E	5150MHz-5250MHz 5725MHz-5850MHz	Output power and emission.
FCC Part 15C	2412MHz-2462MHz	

We, **D-Link Corporation** is taking full responsibility to re-use these test data for its new application FCC ID: KA2BAX2830PA1.

If you have any questions, feel free to contact us. Thank you.

Sincerely yours,

ML Jean/Vice President
