Applicant: D-Link Corporation

Dear Examiner,

This is to request a Class II permissive change for FCC ID: KA2CS6010LA1
, originally granted on 07/11/2012

The major change filed under this application is:

Change #1: Adding an additional antenna as antenna specification. This new Dipole Antenna, 2.4dBi gain (2.45GHz) is different from the antenna in original filing.

Change #2: RF output power has been reduced from the original filing to comply with the modular radiated emission requirement.

Installation and operating requirements, detailing the restrictions, separation distances and antenna requirement for the modular conditions covered by the equipment authorization, are documented in the instructions provided to OEM integrators.

If you have any questions regarding this application, pls feel free to contact me.

Sincerely yours,
