

Class II Change Declaration Letter

Product Name: Wireless N Home Network Camera

Model No. : DCS-930, DCS-930L

Original grant date: 2010.08.29

We D-Link declares that for the following reasons, we apply for Class II Change.

Difference compared with the original is as below:

Reason to Change	Difference
1. Improve the device's transmit and receive performance 2. Cost down	1. Change chip antenna to PCB antenna 2. Add copper in the 2 nd PCB layer (under chip antenna area)
Change chip antenna to PCB antenna	Remove R78, P3

Beside the above difference, the other portion (especially for the RF portion) is identical.

We updated "Schematics", "Internal Picture" and "External Picture" documents.

The radiated power and conducted power are aligned according to the modification as presented in the original FCC application by this type of change.

Sincerely,

**Robert Lin / Senior Director
D-Link Corporation**
