Package Contents

If any of the items are missing, please contact your reseller.

DWA-140
RANGEBOOSTER N
Wireless USB Adapter

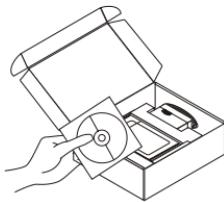

CD-ROM
(Installation CD, Manual
and Warranty)

Quick Installation

Warning: Do NOT install the Adapter into your computer before installing the driver software from the D-Link CD.

- 1** Remove the D-Link CD-ROM.
- 2** A. Insert D-Link CD-ROM into your computer.
- B. Click "Install Driver"

Quick Install Guide Troubleshooting

1. If I've lost my CD what can I do?

The CD contains software drivers and manual which can be obtained from D-Link (see Technical Support below). Windows 2000, XP, Vista in most cases will automatically install the correct drivers.

2. If I've forgotten my wireless encryption key?

The wireless encryption key is configured at the Wireless Access Point, Router or DSL Modem Router. If you are unable to obtain your encryption key, the only solution would be to re-configure your Access Point/Router to use a new encryption key. Please contact your Wireless Access Point/Router/DSL Modem Router manufacturer.

3. Why can't I get a wireless connection?

Check that your DWA-140 is plugged in properly to the USB port or try to plug the DWA-140 into another USB port if available.

Check that the LED has come on. If no the driver or the USB port need to be look at.

Ensure that the wireless settings on the DWA-140 match the settings on your Access Point/Router. Please check and confirm your settings for.

Wireless Network Name (SSID)

Wireless Encryption Key

Wireless Security Method (E.g. WEP, WPA2)

To check whether a Wireless connection has been made, in the Windows System Tray (bottom right). Red means no valid connections have been made.

Check that your Internet is working fine on existing computers.

Ensure that you have followed and completed the software installation process, otherwise, please re-install the software. The LED on the DWA-140 should come on after software installation.

4. Which Operating Systems does the DWA-140 support?

The DWA-140 support all popular Operating Systems including Microsoft Windows XP(64/32 bit)/2000.

Note: If you are unable to connect, see the Troubleshooting chapter of the product manual in the **D-Link DWA-140 RangeBooster N Adapter CD**

Technical Support

Thank you for choosing D-Link products. For further information, support, product drivers and manuals please visit the D-Link website at www.dlink.eu

CD-ROM)

Installationsanleitung

Warnung! Installieren Sie auf keinen Fall den Adapter, bevor Sie nicht die Software von der D-Link-CD-ROM installiert haben.

1 D-Link CD herausnehmen.

2 A. Legen Sie die D-Link CD ins Laufwerk ein.

B. Klicken Sie auf die Schaltfläche "Install Driver"

Kurzanleitung für die Fehlerbehebung

1. Was kann ich tun, wenn ich meine CD verloren habe?

Auf der CD sind die Software-Treiber und das Handbuch gespeichert. Diese sind jedoch auch direkt bei D-Link erhältlich (siehe „Technischer Kundendienst“). Unter Windows 2000, XP, Vista werden die entsprechenden Treiber in der Regel automatisch installiert.

2. Was kann ich tun, wenn ich meinen Verschlüsselungsschlüssel für die drahtlose Verbindung vergessen habe?

Der Verschlüsselungsschlüssel wird im drahtlosen Access Point, Router oder DSL-Modem-Router eingestellt. Wenn Sie Ihren Verschlüsselungsschlüssel verloren haben, müssen Sie den Access Point bzw. den Router neu konfigurieren und einen neuen Schlüssel einstellen. Bitte wenden Sie sich dazu an den Hersteller Ihres drahtlosen Access Point, Routers oder DSL-Modem-Routers.

3. Warum kann ich keine drahtlose Verbindung aufbauen?

Überprüfen Sie, ob der DWA-140 ordnungsgemäß mit dem USB-Anschluss verbunden ist, oder versuchen Sie, wenn möglich, den DWA-140 an einen anderen USB-Anschluss anzuschließen.

Vergewissern Sie sich, dass die grüne Verbindungsanzeige leuchtet. Falls nicht, müssen der Treiber oder der USB-Anschluss überprüft werden.

Überprüfen Sie, ob die Einstellungen für die drahtlose Verbindung am DWA-140 mit den Einstellungen des Access Point bzw. Routers übereinstimmen. Überprüfen Sie folgende Einstellungen:

Netzwerkname (SSID)

Verschlüsselungsschlüssel für die drahtlose Verbindung

Sicherheitsstandard für drahtlose Verbindungen (z. B. WEP, WPA2)

Überprüfen Sie in der Windows-Taskleiste (rechts unten), ob eine drahtlose Verbindung aufgebaut wurde. Wenn das Symbol rot angezeigt wird, wurde keine Verbindung aufgebaut.

Überprüfen Sie, ob das Internet auf anderen Computern funktioniert.

Vergewissern Sie sich, dass die Software korrekt und vollständig installiert ist. Installieren Sie die Software bei Bedarf neu. Die Anzeige am DWA-140 beginnt zu leuchten, sobald die Software korrekt installiert ist.

4. Welche Betriebssysteme werden vom DWA-140 unterstützt?

Der DWA-140 unterstützt alle gängigen Betriebssysteme, z. B. Microsoft Windows XP(64/32 bit)/2000.

Hinweis: Wenn keine Verbindung aufgebaut werden kann, sehen Sie auf der CD für den D-Link DWA-140 RangeBooster N Adapter im Produkthandbuch im Kapitel „Fehlerbehebung“ nach.

Technischer Kundendienst

Vielen Dank, dass Sie sich für ein Produkt von D-Link entschieden haben. Weitere Informationen sowie technische Hilfe, Treiber und Handbücher finden Sie auf unserer Website unter www.dlink.eu.

Guide d'installation rapide

DWA-140

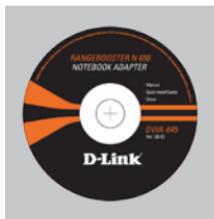

RANGEBOOSTER N™ USB ADAPTER

Que contient la boîte ?

Si l'un des éléments ci-dessous est manquant, veuillez contacter votre revendeur.

DWA-140
RANGEBOOSTER N
Wireless USB Adapter

CD-ROM
(Manuel, logiciel, et
garantie sur CD)

Installation rapide

Avertissement: Ne PAS installer la carte dans votre ordinateur avant d'avoir installé le logiciel des pilotes à partir du CD D-Link.

1 Retirez le CD D-Link.

2 A. Insérez le CD D-Link dans
votre ordinateur.

B. cliquez sur "Install Driver"

Dépannage Guide d'installation rapide

1. J'ai perdu mon CD, que puis-je faire ?

Le CD contient les pilotes de la carte et son manuel. Vous pouvez les télécharger sur le site D-Link (Voir Support Technique ci-dessous). Windows 2000, XP, Vista installent généralement de façon automatique les bons drivers.

2. J'ai perdu ma clé d'encryption sans fil

La clé d'encryption sans fil est configurée sur le point d'accès, le routeur ou le modem routeur DSL sans fil. Si vous ne retrouvez pas cette clé d'encryption, l'unique solution est de reconfigurer votre point d'accès ou routeur afin d'en utiliser une nouvelle. Merci de contacter le constructeur de votre point d'accès/routeur/modem routeur DSL.

3. Je n'arrive pas à me connecter en sans fil

Vérifiez que votre DWA-140 est correctement connecté sur le port USB ou essayez de la connecter sur un autre port USB.

Vérifiez que la diode verte est bien allumée. Si ce n'est pas le cas vérifiez le port USB ou son pilote.

Vérifiez que les paramètres sans fil de votre DWA-140 correspondent à ceux de votre point d'accès/routeur. Voici les points à vérifier :

Nom du réseau sans fil (SSID)

Clé d'encryption sans fil

Méthode de sécurité sans fil (E.g. WEP, WPA2)

Vérifier qu'une connexion sans fil a été établie, dans la barre de tache de Windows (en bas à droite). Le rouge indique que la connexion sans fil n'a pas été établie.

Vérifiez que la connexion Internet fonctionne sur les autres ordinateurs.

Assurez vous d'avoir suivi et fini la procédure d'installation logicielle, sinon merci de la relancer. La diode de la DWA-645 ne doit s'allumer qu'après cette opération.

4. Quels sont les systèmes d'exploitation supportés par la DWA-140 ?

La DWA-140 supporte les principaux systèmes d'exploitation dont Microsoft Windows XP(64/32 bit)/2000.

Note: Si la connexion ne s'établit pas, merci de consulter le chapitre Dépannage du manuel présent sur le CD de la carte RangeBooster N 650 D-Link DWA-140

Support Technique

Merci d'avoir choisi les produits D-Link. Pour plus d'information, un support, télécharger des pilotes ou manuels merci de visiter le site web de D-Link www.dlink.eu

Guía de instalación rápida DWA-140

RANGEBOOSTER N™ USB ADAPTER

¿Qué contiene la caja?

Si falta alguno de estos componentes, contacte con el proveedor.

DWA-140
RANGEBOOSTER N
Wireless USB Adapter

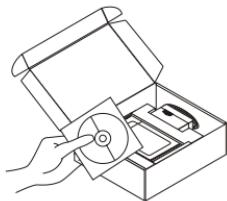

CD-ROM
(Manual, software y
garantía en el CD-ROM)

Guía de instalación rápida

Atención: NO instale el adaptador en su ordenador sin antes haber instalado el software con el controlador que se encuentra en el CD-ROM de D-Link.

1 Saque el CD D-Link.

2 A. Introduzca el CD D-Link en el ordenador.

B. Haga clic en "Install Driver"

Solución de problemas de la Guía de instalación rápida

1. He perdido el CD

El CD contiene controladores y el manual, que pueden obtenerse de D-Link (vea más adelante «Asistencia técnica»). Windows 2000, XP, Vista instalarán automáticamente los controladores correctos en la mayoría de casos.

2. He olvidado mi clave de encriptación inalámbrica

La clave de encriptación inalámbrica está configurada en el punto de acceso, router o módem router DSL inalámbricos. Si no puede obtener su clave de encriptación, la única solución es volver a configurar su punto de acceso o router y, de este modo, usar una nueva clave de encriptación. Póngase en contacto con el fabricante de su punto de acceso, router o módem router DSL inalámbricos.

3. No consigo una conexión inalámbrica

Compruebe que el DWA-140 está conectado correctamente en el puerto USB o pruebe a conectar el DWA-140 en otro puerto USB que esté libre.

Compruebe que el LED de enlace se ha iluminado en verde. Si no es así, debe examinar el controlador o el puerto USB.

Asegúrese de que los parámetros inalámbricos del DWA-140 coinciden con los parámetros de su punto de acceso o router. Compruebe y confirme los parámetros siguientes:

Nombre de red inalámbrica (SSID)

Clave de encriptación inalámbrica

Método de seguridad inalámbrica (p. ej.: WEP, WPA2)

Para comprobar si es ha establecido una conexión inalámbrica, haga clic con el botón de la derecha en la bandeja del sistema de Windows. Si aparece en rojo, es que no se ha establecido ninguna conexión válida.

Compruebe que en los otros navegadores no hay ningún problema con la conexión a internet.

Asegúrese de que ha seguido y completado todo el proceso de instalación del software. El LED del DWA-645 debe encenderse tras la instalación del software.

4. ¿Qué sistemas operativos admite el DWA-140?

El DWA-140 admite todos los sistemas operativos más habituales, incluidos Microsoft Windows XP(64/32 bit)/2000.

Nota: Si no puede conectarse, consulte el capítulo «Solución de problemas» del manual del producto en el **CD del adaptador RangeBooster N DWA-140 de D-Link**.

Asistencia técnica

Gracias por elegir los productos de D-Link. Si desea más información, asistencia, controladores y manuales del producto, visite el sitio web de D-Link, en www.dlink.eu.

Guida di Installazione Rapida DWA-140

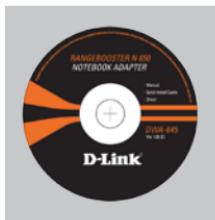

RANGEBOOSTER N™ USB ADAPTER

Cosa contiene la confezione?

Se uno dei componenti dovesse risultare mancante, contattare il rivenditore.

DWA-140
RANGEBOOSTER N
Wireless USB Adapter

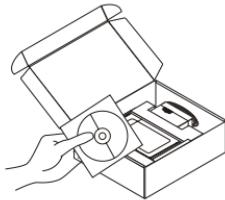

CD-ROM
(CD con manuale,
software e garanzia)

Guida di Installazione Rapida

Attenzione: NON installare l'adattatore nel computer prima di avere installato i driver contenuti nel CD D-Link.

1 Rimuovere il CD D-Link.

2 A. Inserire il CD D-Link nel vostro computer.

B. Cliccare su "Install Driver"

Manuale rapido d'installazione – risoluzione degli errori

1. Ho perso il CD. Come devo comportarmi?

Il CD contiene i driver software e il manuale che possono essere richiesti a D-Link (vedi il paragrafo Supporto tecnico). In molti casi, Windows 2000, XP, Vista installano automaticamente il driver corretto.

2. Ho dimenticato la chiave di cifratura wireless. Come devo comportarmi?

La chiave di cifratura wireless è configurate sul router, sul modem router DSL o sull'accesso point wireless. Se non si riesce a recuperare la chiave di cifratura wireless è necessario riconfigurare l'access point/router per utilizzare una nuova chiave di cifratura. Contattare il produttore dell'access point wireless/router/modem DSL.

3. Non riesco a instaurare una connessione wireless.

Verificare che il dispositivo DWA-140 sia correttamente connesso alla porta USB. Se possibile, provare a collegare il dispositivo DWA-140 a un'altra porta USB disponibile.

Verificare che il LED Link emetta una luce verde. In caso contrario è necessario controllare il driver o la porta USB.

Verificare che le impostazioni wireless del dispositivo DWA-140 corrispondano alle impostazioni dell'access point/router. Controllare e confermare le impostazioni relative a:

Nome della rete wireless (SSID)

Chiave di cifratura wireless

Metodo di sicurezza wireless (per esempio, WEP, WPA2)

Per verificare la connessione wireless, utilizzare la barra delle applicazioni di Windows (in basso a destra). In assenza di una connessione valida è rossa.

Verificare che internet funzioni correttamente sui computer disponibili.

Verificare di avere eseguito e completato la procedura d'installazione del software.

In caso contrario installare nuovamente il software. Il LED del dispositivo DWA-645 dovrebbe accendersi dopo l'installazione del software.

4. Quali sistemi operativi sono supportati dal dispositivo DWA-140?

Il dispositivo DWA-140 supporta tutti i più diffusi sistemi operativi, inclusi Microsoft Windows XP(64/32 bit)/2000.

Nota: Se non si riesce a instaurare una connessione, consultare il capitolo Risoluzione degli errori del manuale utente contenuto nel CD dell'adattatore RangeBooster N D-Link DWA-140

Supporto tecnico

Grazie per avere scelto i prodotti D-Link. Per maggiori informazioni o per ricevere supporto tecnico, driver e manuali, visitare il sito D-Link all'indirizzo www.dlink.eu

Beknopte installatiehandleiding

DWA-140

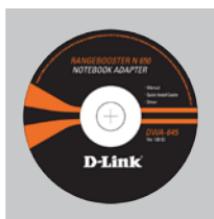

RANGEBOOSTER N™ USB ADAPTER

Inhoud van de verpakking

Als een van deze items ontbreekt, neemt u contact op met de leverancier.

DWA-140
RANGEBOOSTER N
Wireless USB Adapter

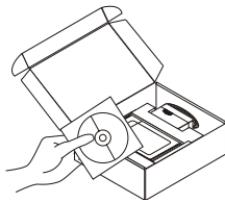

CD-ROM
(Handleiding, software
en garantieformulier
op cd)

Beknopte installatiehandleiding

Waarschuwing: De draadloze adapter mag nog NIET op de computer zijn aangesloten wanneer u de stuurprogramma's gaan installeren vanaf de cd!

1 Verwijder de cd D-Link.

2 A. Plaats de cd D-Link in de computer.

B. Klik op "Install Driver"

Beknopte installatiehandleiding - Problemen oplossen

1. Wat moet ik doen als ik mijn cd kwijt ben?

De cd bevat stuurprogramma's en een handleiding. Deze materialen kunt u ook downloaden van de site van D-Link (zie Technische ondersteuning hieronder). In Windows 2000, XP, Vista worden in de meeste gevallen automatisch de juiste stuurprogramma's geïnstalleerd.

2. Ik ben de encryptiesleutel voor mijn draadloze netwerk vergeten.

De encryptiesleutel voor het draadloze netwerk is opgeslagen op het draadloze Access Point, de router of de ADSL-router met modem. Als u niet kunt achterhalen wat de encryptiesleutel is, kunt u het probleem alleen verhelpen door het Access Point of de router te configureren met een nieuwe encryptiesleutel. Neem voor meer informatie contact op met de fabrikant van het draadloze Access Point, de router of de ADSL-router met modem.

3. Waarom kan ik geen draadloze verbinding tot stand brengen?

Controleer of de DWA-140 goed is aangesloten op de USB-poort of sluit de DWA-140 aan op een andere USB-poort (indien beschikbaar).

Controleer of het groene lampje brandt. Als dat niet het geval is, controleert u de werking van het stuurprogramma of de USB-poort.

Zorg ervoor dat de draadloze instellingen op de DWA-140 overeenkomen met de instellingen op het Access Point of de router. Controleer de volgende instellingen en pas deze zo nodig aan.

Naam draadloos netwerk (SSID)

Encryptiesleutel voor het draadloze netwerk

Beveiligingsmethode voor het draadloze netwerk (bijvoorbeeld WEP of WPA2)

U kunt op de taakbalk van Windows (helemaal rechts) zien of er een draadloze verbinding tot stand is gebracht. Rood betekent dat er geen draadloze verbinding tot stand is gebracht.

Controleer of internet wel goed werkt op andere computers.

Controleer of u de installatie van de software op de juiste manier en volledig hebt uitgevoerd. Installeer de software anders opnieuw. Het lampje van de DWA-140 moet gaan branden na de software-installatie.

4. Met welke besturingssystemen kan ik de DWA-140 gebruiken?

De DWA-140 ondersteunt alle populaire besturingssystemen, zoals Microsoft Windows XP(64/32 bit)/2000.

Opmerking Als u nog steeds geen verbinding kunt maken, lees dan het hoofdstuk Troubleshooting in de producthandleiding op de cd van de D-Link DWA-140 RangeBooster N adapter.

Technische ondersteuning

D-Link stelt het zeer op prijs dat u hebt gekozen voor een van onze producten. Ga voor meer informatie, ondersteuning, stuurprogramma's en handleidingen naar de website van D-Link op het adres www.dlink.eu.

Skrócona instrukcja obsługi DWA-140

RANGEBOOSTER N™ USB ADAPTER

Zawartość opakowania

Sprawdź czy wszystkie elementy znajdują się w opakowaniu

DWA-140
RANGEBOOSTER N
Wireless USB Adapter

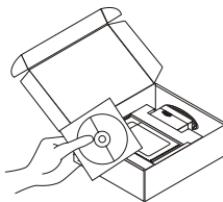

CD-ROM
(Instrukcja oraz
oprogramowanie na
płycie CD)

Skrócona instrukcja obsługi

Ostrzeżenie: nie instaluj karty bezprzewodowej w komputerze przez zainstalowaniem sterowników z płyty CD.

- 1** Wyjmij płytę D-Link CD-ROM.
- 2** A. Włóż płytę D-Link do napędu CD.

Rozwiązywanie problemów

1. Co zrobić, jeśli zagubieniu uległa płyta CD?

Płyta CD zawiera sterowniki oraz podręcznik użytkownika które mogą być również pobrane z witryny internetowej firmy D-Link. Systemy operacyjne Windows 2000, XP, Vista w większości przypadków zainstalują automatycznie prawidłowe sterowniki.

2. Co zrobić, jeśli zapomniałem sieciowy klucz szyfrowania?

Sieciowy klucz szyfrowania jest konfigurowany w bezprzewodowym punkcie dostępowym lub routerze bezprzewodowym. Jeśli nie ma możliwości przypomnienia sobie klucza, jedynym rozwiązaniem jest jego zmiana w powyższym urządzeniach. Zajrzyj do podręcznika użytkownika aby dowiedzieć się, w jaki sposób skonfigurować klucz szyfrowania sieci bezprzewodowej.

3. Dlaczego nie mogę uzyskać połączenia bezprzewodowego?

Sprawdź, czy adapter DWA-140 jest poprawnie przyłączony do portu USB lub spróbuj przyłączyć go do innego wolnego portu.

Upewnij się, że zaświeciła się zielona dioda LED. Jeśli nie, sprawdź połączenie z portem USB oraz czy jest zainstalowany odpowiedni sterownik.

Upewnij się, że ustawienia sieci bezprzewodowej adaptera DWA-140 odpowiadają ustawieniom sieci bezprzewodowej punktu dostępowego lub routera bezprzewodowego.

Sprawdź następujące ustawienia:

Nazwa sieci bezprzewodowej (SSID)

Klucz szyfrowania sieci bezprzewodowej

Rodzaj szyfrowania (np. WEP, WPA2)

Aby sprawdzić, czy nawiązane zostało połączenie bezprzewodowe, w zasobniku systemowym Windows (po prawej na dole ekranu). Kolor czerwony oznacza brak połączenia.

Upewnij się, że na przyłączonych komputerach masz dostęp do Internetu.

Upewnij się, że ukończyleś instalację oprogramowania i sterowników do urządzenia.

Jeśli nie, zainstaluj oprogramowanie ponownie. Dioda na adapterze DWA-140 powinna zaświecić się po instalacji oprogramowania.

4. Z jakimi systemami operacyjnymi działa adapter DWA-140?

Adapter DWA-140 działa z następującymi systemami operacyjnymi: Microsoft Windows XP(64/32 bit)/2000.

Notatka: Jeśli nie możesz się połączyć, zajrzyj do rozdziału rozwiązywania problemów w podręczniku użytkownika adaptera DWA-140 znajdującego się na płycie CD dołączonej do tego produktu.

Wsparcie techniczne

Dziękujemy za wybranie produktów D-Link. Aby uzyskać dodatkowe informacje, wsparcie techniczne oraz sterowniki i podręczniki użytkownika, odwiedź witrynę internetową firmy D-Link pod adresem <http://www.dlink.eu>

Návod na rychlou instalaci DWA-140

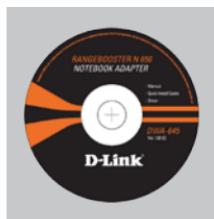

RANGEBOOSTER N™ USB ADAPTER

Balení obsahuje

Pokud některá z položek chybí, kontaktujte prodejce.

DWA-140
RANGEBOOSTER N
Wireless USB Adapter

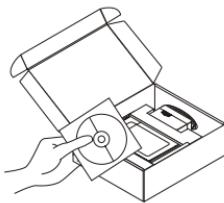

CD-ROM
(Návod, software a
záruční podmínky na CD)

Návod na rychlou instalaci

Varování: NEINSTALUJTE adaptér do počítače dříve, než nainstalujete ovladač z CD D-Link.

1 vyjměte CD D-Link.

2 A. vložte do počítače CD D-Link . B. Klikněte na " Install Driver"

Návod na rychlou instalaci – Řešení problémů

1. Co mám dělat, když jsem ztratil dodávané CD?

CD obsahuje ovladače a návod, které lze získat od D-Link (viz „Technická podpora“ níže). Systémy Windows 2000, XP, Vista nainstalují ve většině případů automaticky správné ovladače.

2. Co když jsem zapomněl šifrovací klíč pro svoji bezdrátovou síť?

Šifrovací klíč pro bezdrátovou síť je nakonfigurován v bezdrátovém přístupovém bodu, směrovači nebo směrovači s DSL modemem. Pokud nemůžete zjistit svůj šifrovací klíč, jediným řešením bude nakonfigurovat váš bezdrátový přístupový bod/směrovač na nový šifrovací klíč. Pokud nevíte jak, kontaktujte výrobce vašeho bezdrátového přístupového bodu, směrovače nebo směrovače s DSL modemem.

3. Proč se nemohu bezdrátově připojit?

Zkontrolujte, zda je DWA-140 připojen správně do USB portu nebo zkuste připojit DWA-140 do jiného volného USB portu.

Zkontrolujte, zda svítí zelený indikátor Link. Pokud ne, je třeba zkonto rovat USB port nebo instalaci ovladače.

Ujistěte se, že nastavení bezdrátové sítě na DWA-140 odpovídá nastavení na vašem přístupovém bodu/směrovači. Zkontrolujte shodu těchto nastavení.

Název bezdrátové sítě (SSID)

Šifrovací klíč (Encryption Key)

Typ šifrování (např. WEP, WPA2)

Podívejte se na hlavní panel Windows (oznamovací oblast vpravo dole). Červená znamená, že se nepodařilo navázat spojení.

Zjistěte, zda na ostatních počítačích funguje připojení k Internetu.

Ujistěte se, že jste dokončili proces instalace a postupovali přitom podle pokynů. V opačném případě reinstalujte software. Indikátor na DWA-140 by se měl po instalaci softwaru rozsvítit.

4. Jaké operační systémy podporuje DWA-140?

DWA-140 podporuje všechny nejznámější operační systémy včetně Microsoft Windows XP(64/32 bit)/2000.

Poznámka: Pokud se nemůžete připojit, podívejte se do kapitoly „Řešení problémů“ v návodu na CD pro **RangeBooster N adaptér D-Link DWA-140**

Technická podpora

Děkujeme, že jste si vybrali produkty D-Link. Další informace, podporu, ovladače a návody najdete na webových stránkách D-Link na www.dlink.eu

Gyors telepítési útmutató DWA-140

RANGEBOOSTER N™ USB ADAPTER

Mit tartalmaz a csomag?

Amennyiben az alábbi elemek bármelyike hiányzik, kérjük, keresse fel értékesítőjét.

DWA-140
RANGEBOOSTER N
Wireless USB Adapter

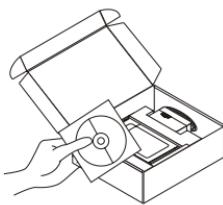

CD-ROM
(Használati útmutató,
szoftver és garancia CD
lemezen)

Gyors Telepítési Útmutató

Figyelmeztetés: NE csatlakoztassa az adaptort számítógépéhez, mielőtt a D-Link CD-n található driver szoftvert nem telepítette!

- 1** Vegye ki a D-Link CD lemezt
- 2** A. Helyezze be a D-Link CD-t a számítógépbe.
B. Kattintson az "Install Driver" gombra.

Hibaelhárítás

1. Mit tegyek, ha elvesztem a CD-t?

A CD-n található szoftvereket és használati útmutatót letöltheti a D-Link weboldalán található Technikai támogatás menüre kattintva. A Windows 2000, XP, Vista operációs rendszerek rendszerint automatikusan telepítik a megfelelő meghajtókat.

2. Mit tegyek, ha elfelejtettem a vezeték nélküli titkosítási kulcsomat?

A vezeték nélküli titkosítási jelszó a vezeték nélküli hozzáférési ponton, roteren vagy DSL modem routeren került beállításra. Ha nem tudja megszerezni a titkosítási kulcsot, újat kell beállítania a hozzáférési ponton / routeren. Ehhez olvassa el a vezeték nélküli hozzáférési pont/router/DSL modem router gyártójának utasításait.

3. Miért nem működik a vezeték nélküli kapcsolatom?

Ellenőrizze, hogy a DWA-140 megfelelően csatlakozik-e az USB portra, illetve ha van rendelkezésre álló másik USB port, helyezze át abba az adaptert.

Ellenőrizze, hogy a zöld Link LED világít-e. Ha nem, ellenőrizze a drivert vagy az USB portot.

Ellenőrizze, hogy a DWA-140 vezeték nélküli beállításai megegyeznek-e a hozzáférési pont/router megfelelő beállításaival különös tekintettel az alábbiakra:

Vezeték nélküli hálózat neve (SSID)

Vezeték nélküli titkosítási kulcs

Vezeték nélküli biztonsági mód (pl. WEP, WPA2)

A Windows rendszertálcáján (jobb alul) ellenőrizheti a vezeték nélküli kapcsolat létrejöttét. A piros szín azt jelzi, hogy nem jött létre a kapcsolat.

Ellenőrizze, hogy az Internet megfelelően működik-e a már hálózatba kapcsolt számítógépeken.

Ellenőrizze, hogy megfelelően követte-e a szoftver telepítési eljárását. Ha nem, telepítse újra a szoftvert. A DWL-140 LED kijelzőjének ki kell gyulladnia a szoftver telepítését követően.

4. Milyen operációs rendszerek használatát támogatja a DWA-140?

A DWA-140 minden elterjedt operációs rendszer (Microsoft Windows XP(64/32 bit)/2000) használatát támogatja.

Figyelem: Ha nem tud csatlakozni, olvassa el a D-Link DWA-140 RangeBooster N adapter CD-jén található Használati útmutató Troubleshooting (Hibaelhárítás) című fejezetét.

Technikai támogatás

Köszönjük, hogy a D-Link termékét választotta. További információkat, támogatást, termék drivereket és használati útmutatókat talál weboldalunkon: www.dlink.eu.

Hurtiginstallasjonsveiledning DWA-140

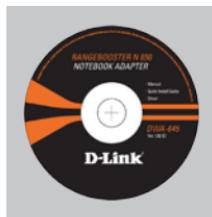

RANGEBOOSTER N™ USB ADAPTER

Hva inneholder esken?

Vennligst kontakt forhandleren hvis noen av disse delene mangler.

DWA-140
RANGEBOOSTER N
Wireless USB Adapter

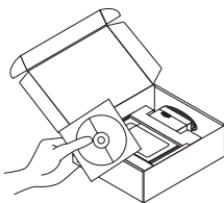

CD-ROM
(Håndbok, programvare
og garanti på CD)

Hurtiginstallasjonsveiledning

Advarsel: IKKE installér kortbusskort i datamaskinen før du har installert driverprogramvaren på CD-en fra D-Link.

1 Ta ut CD-en D-Link.

2 A. Sett CD-en D-Link i datamaskinen.

B. Klikk på "Install Driver"

Problemløsing ved installering

1. Jeg har mistet CD-en min. Hva kan jeg gjøre?

CD-en inneholder drivere og håndbøker som kan fås fra D-Link (se Teknisk støtte nedenfor). Windows 2000, XP, Vista vil i de fleste tilfeller installere riktige drivere automatisk.

2. Jeg har glemt min trådløse krypteringsnøkkelen

Den trådløse krypteringsnøkkelen er konfigurert på det trådløse aksesspunktet, ruten eller ADSL-modemruteren. Hvis du ikke finner frem til krypteringsnøkkelen, er eneste løsning å omkonfigurere aksesspunktet/ruten med en ny krypteringsnøkkel. Kontakt produsenten av det trådløse aksesspunktet/ruten/DSL-modemruteren.

3. Hvorfor oppnår jeg ikke trådløs forbindelse?

Kontroller at DWA-140 er koblet riktig til USB-porten, eller prøv å koble DWA-140 i en annen, tilgjengelig USB-port.

Sjekk at den grønne forbindelseslampen lyser. Hvis ikke, må du konsentrere deg om driveren eller USB-porten.

Pass på at de trådløse innstillingene på DWA-140 samsvarer med innstillingene på aksesspunktet/ruten. Kontroller og bekrefte innstillingene for:

Navn på trådløst nettverk (SSID)

Trådløs krypteringsnøkkel

Trådløs sikkerhetsmetode (f.eks. WEP, WPA2)

Sjekk om det er opprettet en trådløs forbindelse i systemstatusfeltet til Windows (nederst til høyre). Rød vil si at det ikke er opprettet gyldige forbindelser.

Kontroller at internett fungerer på eksisterende datamaskiner.

Pass på at du har fulgt og fullført programvareinstallasjonen. Hvis ikke, installerer du programvaren på nytt. Lampen på DWA-140 skal lyse etter programvareinstallasjon.

4. Hvilke operativsystemer støtter DWA-140?

DWA-140 støtter alle populære operativsystemer, inkludert Microsoft Windows XP(64/32 bit)/2000.

Merk: **Hvis du ikke klarer å koble til, slår du opp på kapittelet om problemløsing i produkthåndboken på CD-en til D-Link DWA-140 RangeBooster N adapter.**

Teknisk støtte

Takk for at du valgte produkter fra D-Link. Hvis du trenger mer informasjon, støtte, drivere og håndbøker, kan du gå inn på D-Links nettsted på www.dlink.eu.

Kort installationsvejledning DWA-140

RANGEBOOSTER N™ USB ADAPTER

Hvad er der i boksen?

Hvis noget af ovennævnte indhold mangler, skal du kontakte forhandleren.

DWA-140
RANGEBOOSTER N
Wireless USB Adapter

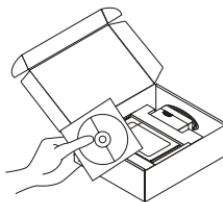

CD-ROM
(Manual, software og
garanti på cd)

Kort installationsvejledning

Advarsel! Installer IKKE netværkskortet i computeren, før du installerer driverprogrammet på cd'en fra D-Link.

Tag cd'en med D-Link CD.

2 A. Sæt cd'en med D-Link CD
i computeren.

B. Klik på "Install Driver"

Kort installationsvejledning – fejlfinding

1. Hvad kan jeg gøre, hvis jeg har mistet min cd?

Cd'en indeholder softwaredrivere og håndbog, og disse kan fås fra D-Link (se Teknisk support nedenfor). Windows 2000, XP, Vista vil i de fleste tilfælde automatisk installere de rigtige drivere.

2. Hvis jeg har glemt nøglen til trådløs kryptering?

Nøglen til trådløs kryptering konfigureres ved det trådløse access point, routeren eller DSL-modemrouteren. Hvis du ikke kan få fat i krypteringsnøglen, er den eneste løsning at konfigurere dit access point/router igen, så du kan bruge en ny krypteringsnøgle. Kontakt producenten af dit trådløse access point/router/DSL-modemrouter.

3. Hvorfor kan jeg ikke få oprettet trådløs forbindelse?

Kontroller, at DWA-140 er sat korrekt i USB-porten, eller prøv at sætte DWA-140 i en anden USB-port, hvis der er en ledig.

Kontroller, at den grønne Link-lysdiode tændes. Gør den ikke det, skal du kontrollere driveren eller USB-porten.

Sørg for, at de trådløse indstillinger i DWA-140 svarer til indstillingerne for dit access point/router. Kontroller og bekræft indstillingerne for:

Navnet på det trådløse netværk (SSID)

Nøglen til trådløs kryptering

Metoden til trådløs sikkerhed (f.eks. WEP, WPA2)

Kontroller på proceslinjen i Windows (nederst til højre), om der er oprettet trådløs forbindelse. Rød betyder, at der ikke er oprettet brugbar forbindelse.

Kontroller, at internettet fungerer korrekt på de computere, du allerede har.

Kontroller, at du har fulgt instruktionerne ved installationen af softwaren og fuldført processen. Hvis ikke, skal du installere softwaren igen. Lysdioden på DWA-140 bør blive tændt efter installation af softwaren.

4. Hvilke operativsystemer understøtter DWA-140?

DWA-140 understøtter alle almindelige operativsystemer, inklusive Microsoft Windows XP(64/32 bit)/2000.

Bemærk! Hvis du ikke kan oprette forbindelse, skal du læse fejlfindingskapitlet i produkthåndbogen på cd'en med det trådløse D-Link DWA-140 RangeBooster N.

Teknisk support

Tak, fordi du har valgt D-Link-produkter. Du kan finde flere oplysninger, support, produktdrivere og håndbøger på D-Links websted på adressen www.dlink.eu

Pika-asennusopas DWA-140

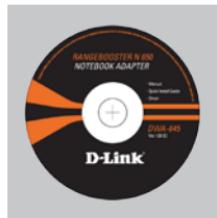

RANGEBOOSTER N™ USB ADAPTER

Mitä laatikossa on?

Jos pakkauksesta puuttuu jokin yllämainituista, ota yhteys jälleenmyyjääsi.

DWA-140
RANGEBOOSTER N
Wireless USB Adapter

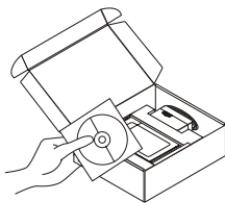

CD-ROM
(Käyttöopas, ohjelmisto
ja takuutodistus CD-
levyllä)

Pika-asennusopas

Varoitus: ÄLÄ ASETA DWA-140-sovitinta tietokoneeseesi ennen kuin olet suorittanut loppuun ohjainten asennuksen CD:ltä.

1 Poista D-Link CD-levy.

2 A. Aseta D-Link CD-levy
tietokoneeseesi.

B. Klikkaa "Install Driver"

Pika-asennusopas / ongelmanratkaisu

1. Mitä teen, jos CD-levy katoaa?

CD-levy sisältää ohjaintiedostoja ja käyttöoppaan. Ne ovat saatavissa D-Linkiltä (ks. kohta Tekninen tuki alla). Windows 2000-, XP-, Vista käyttöjärjestelmät asentavat useimmiten oikeat ohjaimet automaattisesti.

2. Mitä jos olen unohtanut langattoman salausavaimen?

Langaton salausavain kuuluu langattoman tukiaseman, reitittimen tai DSL-modeemin asetuksiin. Jos olet unohtanut tai kadottanut salausavaimesi, on ainoa vaihtoehto tehdä tukiaseman/reitittimen asetukset uudelleen käyttäen uutta salausavainta. Ota yhteyttä langattoman tukiaseman/reitittimen/DSL-modeemireitittimen valmistajaan tai maahantuojaan.

3. Langaton yhteys ei toimi – miksi?

Tarkista, että DWA-140:n liitäntä USB-porttiin on kunnossa. Koeta kytkeä DWA-140 toiseen USB-porttiin, jos sellainen on vapaana.

Tarkista, että vihreä Link-merkkivalo on sytynyt. Jos se ei ole sytynyt, on tarkistettava ohjain tai USB-yhteys.

Varmista, että DWA-140:n langattomat asetukset vastaavat tukiaseman/reitittimen asetuksia. Tarkista seuraavat asetukset.

Langattoman verkon nimi (SSID)

Langaton salausavain

Langattoman tietoturvan typpi (esim. WEP, WPA2)

Tarkista Windowsin tehtäväpalkista (alhaalla oikealla). Punainen väri merkitsee, ettei toimivaa yhteyttä ole syntynyt.

Varmista muiden tietokoneiden avulla, että yhteys Internettiin toimii asianmukaisesti.

Varmista, että olet tehnyt ohjelmistoasennuksen asianmukaisesti. Muussa tapauksessa asenna ohjelmisto uudelleen. DWA-140:n merkkivalon pitäisi sytytyä ohjelmistoasennuksen jälkeen.

4. Mitä käyttöjärjestelmiä DWA-140 tukee?

DWA-140 tukee kaikkia suosittuja käyttöjärjestelmiä, mm. Microsoft Windows XP(64/32 bit)/2000.

Huom! Jos yhteyttä ei edelleenkään synny, tutustu **D-Linkin langattoman DWA-140-sovittimen CD-levyllä sijaitsevan käyttöoppaan kappaaleeseen Vianetsintä.**

Tekninen tuki

Kiitos, että valitsit D-Linkin tuotteen. Lisätietoja, tuotetukea, laiteohjaimia ja käyttöoppaita löydät D-Linkin www-sivulta osoitteessa www.dlink.eu.

Snabbinstallationsguide DWA-140

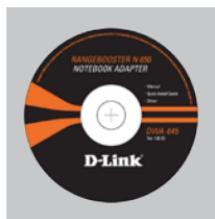

RANGEBOOSTER N™ USB ADAPTER

Vad finns i lådan?

Vänligen kontakta din återförsäljare om någon av ovanstående komponenter saknas.

DWA-140
RANGEBOOSTER N
Wireless USB Adapter

CD-ROM
(Manual, programvara
och garanti på cd)

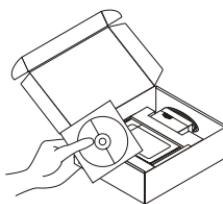

Snabbinstallations

Varning! Installera INTE adaptern i din dator innan du installerat drivrutinerna från D-Links cd-skiva.

Ta ut cd:n D-Link CD.

2 A. Stoppa in cd:n D-Link CD
i datorn.

B. Klicka på "Install Driver"

Snabbinstallationsguide – felsökning

1. Vad kan jag göra om jag har förlorat CD:n?

CD:n innehåller drivrutiner och en manual, vilka kan fås från D-Link (se Teknisk support nedan). Windows 2000, XP, Vista installerar i de flesta fall automatiskt rätt drivrutiner.

2. Om jag har glömt min trådlösa krypteringsnyckel?

Den trådlösa krypteringsnyckeln är konfigurerad på den trådlösa accesspunkten, routern eller DSL-modemroutern. Om du inte kan ta reda på din krypteringsnyckel, återstår bara att omkonfigurera accesspunkten/routern, så att du kan använda en ny krypteringsnyckel. Kontakta tillverkaren av den trådlösa accesspunkten/routern/DSL-modemroutern.

3. Varför går det inte att skapa någon trådlös anslutning?

Kontrollera att DWA-140 är ordentligt ansluten till USB-porten, eller prova att ansluta DWA-140 till en annan USB-port om det finns någon.

Kontrollera att den gröna lysdioden för förbindelse lyser. Om den inte lyser måste drivrutinerna eller USB-porten kontrolleras.

Kontrollera att de trådlösa inställningarna för DWA-140 stämmer överens med inställningarna för accesspunkten/routern. Kontrollera och bekräfta inställningarna för:

Namn på trådlöst nätverk (SSID)

Trådlös krypteringsnyckel

Typ av trådlös kryptering (t.ex. WEP, WPA2)

Kontrollera i aktivitetsfältet i Windows (nere till höger) att det finns en trådlös anslutning. Rött innebär att det inte finns någon fungerande anslutning.

Kontrollera att Internet fungerar ordentligt på de befintliga datorerna.

Kontrollera att du har installerat programvaran på rätt sätt. Om inte, måste du ominstallera programvaran. Lysdioden på DWA-140 bör tändas efter det att programvaran installerats.

4. Vilka operativsystem stödjer DWA-140?

DWA-140 stödjer alla vanliga operativsystem såsom Microsoft Windows XP(64/32 bit)/2000.

Obs! Om du inte kan upprätta någon anslutning kan du läsa i produktmanualens kapitel om felsökning på CD-skivan D-Link DWA-140 RangeBooster N adapter

Teknisk support

DWA-140
RANGEBOOSTER N
Wireless USB Adapter

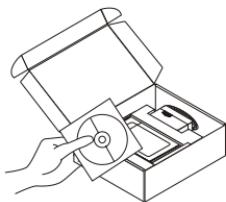

CD-ROM
(Manual, software e
garantia no CD)

Instalação rápida

Aviso: NÃO instale o adaptador no seu computador antes de instalar o software do controlador que está no CD da D-Link.

1 Retire o CD D-Link.

2 A. Coloque o CD D-Link no seu PC.

B. Clique em "Install Driver"

Guia de instalação rápida – Resolução de Problemas

1. Perdi o meu CD, o que posso fazer?

O CD contém os drivers do software e o manual que podem ser obtidos na D-Link (consulte a Assistência Técnica abaixo). O Windows 2000, XP, Vista na maior parte dos casos, vão instalar automaticamente os drivers correctos.

2. Esqueci-me do meu código de encriptação sem fios?

O código de encriptação sem fios é configurado no Ponto de Acesso Sem Fios, Router ou Router do Modem DSL. Se não conseguir obter o seu código de encriptação, a única solução será reconfigurar o seu Ponto de Acesso/Router para utilizar um novo código de encriptação. Contacte o fabricante do seu Ponto de Acesso Sem Fios/Router/Modem DSL.

3. Porque não consigo obter uma ligação sem fios?

Verifique se o seu DWA-140 está ligado correctamente à sua porta USB ou tente ligar o DWA-140 a outra porta USB se possível.

Verifique se o LED de Ligação verde está aceso. Caso contrário, tem de verificar o driver ou a porta USB.

Certifique-se de que as definições sem fios do DWA-140 correspondem às definições do seu Ponto de Acesso/Router. Verifique e confirme as suas definições.

Nome de Rede Sem Fios (SSID)

Código de Encriptação Sem Fios

Método de Segurança Sem Fios (P. ex. WEP, WPA2)

Para confirmar se foi realizada uma ligação sem fios, vá ao ícone do Windows (canto inferior direito). Vermelho significa que não foram feitas ligações válidas.

Verifique se a Internet está a trabalhar correctamente nos computadores existentes.

Certifique-se de que seguiu e concluiu o processo de instalação do software, caso contrário, volte a instalar o software. O LED do DWA-140 deve acender-se depois da instalação do software.

4. Qual é o Sistema Operativo suportado pelo DWA-140?

O DWA-140 suporta todos os Sistemas Operativos usuais incluindo o Microsoft Windows XP(64/32 bit)/2000.

Nota: Se não consegue estabelecer uma ligação, consulte o capítulo Resolução de Problemas do manual do produto no **CD do Adaptador RangeBooster N DWA-140 da D-Link**

Οδηγός Γρήγορης Εγκατάστασης του DWA-140 RANGEBOOSTER N™ USB ADAPTER

Περιεχόμενα Πακέτου

Αν κάποιο από τα παρακάτω τεμάχια λείπει, παρακαλώ επικοινωνήστε με τον μεταπωλητή σας.

DWA-140
RANGEBOOSTER N
Wireless USB Adapter

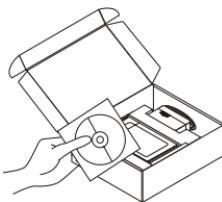

CD-ROM
(CD με εγχειρίδιο,
software και εγγύηση)

Οδηγός Γρήγορης Εγκατάστασης

Προσοχή: ΜΗΝ εγκαθιστάτε τον προσαρμογέα στο computer αν πριν δεν έχετε εγκαταστήσει τα driver που περιέχει το CD D-Link.

Αφαιρέστε το D-Link CD.

- 2** A. Εισάγετε το D-Link CD στον υπολογιστή σας.

Εγχειρίδιο σύντομης εγκατάστασης – διόρθωση λαθών

1. Έχασα το CD. Τι πρέπει να κάνω;

Το CD περιέχει τα driver software και το εγχειρίδιο που μπορούν να ζητηθούν από την D-Link (βλέπε την παράγραφο Τεχνική υποστήριξη). Σε πολλές περιπτώσεις, τα Windows 2000, XP, Vista εγκαθιστούν αυτόματα το σωστό driver.

2. Ξέχασα το κλειδί κρυπτογράφησης wireless. Τι πρέπει να κάνω;

Το κλειδί κρυπτογράφησης wireless είναι διαμορφωμένο στο router, στο modem router DSL ή στην πρόσβαση point wireless. Αν δεν καταφέρετε να επανακτήσετε το κλειδί κρυπτογράφησης wireless, είναι απαραίτητο να αναδιαμορφώσετε το access point/router για να χρησιμοποιήσετε ένα νέο κλειδί κρυπτογράφησης. Επικοινωνήστε με τον παραγωγό του access point wireless/router/modem DSL.

3. Δεν καταφέρνω να εγκαθιδρύσω μια σύνδεση wireless.

Ελέγχετε αν η συσκευή DWA-140, είναι σωστά συνδεδεμένη με την θύρα USB. Αν σας είναι δυνατό, δοκιμάστε να συνδέσετε την συσκευή DWA-140 με μια άλλη διαθέσιμη θύρα USB.

Ελέγχετε αν το LED Link εκπέμπει ένα πράσινο φως. Στην αντίθετη περίπτωση είναι απαραίτητο να ελέγχετε το driver ή την θύρα USB.

Ελέγχετε αν οι ρυθμίσεις wireless της συσκευής DWA-140 αντιστοιχούν στις ρυθμίσεις του access point/router. Ελέγχετε και επιβεβαιώστε τις ρυθμίσεις που είναι σχετικές με:

Όνομα του δικτύου wireless (SSID)

Κλειδί κρυπτογράφησης wireless

Μέθοδος ασφάλειας wireless (για παράδειγμα, WEP, WPA2)

Για να ελέγχετε την σύνδεση wireless, χρησιμοποιήστε την γραμμή των εφαρμογών του Windows (κάτω δεξιά). Όταν δεν υπάρχει μια ισχύουσα σύνδεση είναι κόκκινο.

Ελέγχετε αν το Internet λειτουργεί σωστά στα διαθέσιμα κομπιούτερ.

Ελέγχετε αν έχετε εκτελέσει και ολοκληρώσει την διαδικασία εγκατάστασης του software. Στην αντίθετη περίπτωση εγκαταστήστε και πάλι το software. Το LED της συσκευής DWA-140 θα πρέπει να ανάψει μετά την εγκατάσταση του software.

4. Ποια λειτουργικά συστήματα υποστηρίζει η συσκευή DWA-140;

Η συσκευή DWA-645 υποστηρίζει όλα τα πιο γνωστά λειτουργικά συστήματα, συμπεριλαμβανόμενα Microsoft Windows XP(64/32 bit)/2000.

Σημείωση: αν δεν καταφέρνετε να εγκαθιδρύσετε μια σύνδεση, συμβουλευτείτε το κεφάλαιο Διόρθωση λαθών του εγχειρίδιου χρήστη που περιέχει το CD του αντάπτορα RangeBooster N D-Link DWA-140

Τεχνική υποστήριξη

Ευχαριστούμε που διαλέξατε τα προϊόντα της D-Link. Για περισσότερες πληροφορίες ή για να έχετε τεχνική υποστήριξη, driver και εγχειρίδια, επισκεφτείτε το site D-Link στην διεύθυνση www.dlink.eu.

Warranty

Subject to the terms and conditions set forth herein, D-Link Systems, Inc. ("D-Link") provides this Limited Warranty:

- Only to the person or entity that originally purchased the product from D-Link or its authorized reseller or distributor, and
- Only for products purchased and delivered within the fifty states of the United States, the District of Columbia, U.S.

Possessions or Protectorates, U.S. Military Installations, or addresses with an APO or FPO.

Limited Warranty:

D-Link warrants that the hardware portion of the D-Link product described below ("Hardware") will be free from material defects in workmanship and materials under normal use from the date of original retail purchase of the product, for the period set forth below ("Warranty Period"), except as otherwise stated herein.

- Hardware (excluding power supplies and fans): One (1) year
- Power supplies and fans: One (1) year
- Spare parts and spare kits: Ninety (90) days

The customer's sole and exclusive remedy and the entire liability of D-Link and its suppliers under this Limited Warranty will be, at D-Link's option, to repair or replace the defective Hardware during the Warranty Period at no charge to the original owner or to refund the actual purchase price paid. Any repair or replacement will be rendered by D-Link at an Authorized D-Link Service Office. The replacement hardware need not be new or have an identical make, model or part. D-Link may, at its option, replace the defective Hardware or any part thereof with any reconditioned product that D-Link reasonably determines is substantially equivalent (or superior) in all material respects to the defective Hardware. Repaired or replacement hardware will be warranted for the remainder of the original Warranty Period or ninety (90) days,

whichever is longer, and is subject to the same limitations and exclusions. If a material defect is incapable of correction, or if D-Link determines that it is not practical to repair or replace the defective Hardware, the actual price paid by the original purchaser for the defective Hardware will be refunded by D-Link upon return to D-Link of the defective Hardware. All Hardware or part thereof that is replaced by D-Link, or for which the purchase price is refunded, shall become the property of D-Link upon replacement or refund.

Limited Software Warranty:

D-Link warrants that the software portion of the product ("Software") will substantially conform to D-Link's then current functional specifications for the Software, as set forth in the applicable documentation, from the date of original retail purchase of the Software for a period of ninety (90) days ("Software Warranty Period"), provided that the Software is properly installed on approved hardware and operated as contemplated in its documentation. D-Link further warrants that, during the Software Warranty Period, the magnetic media on which D-Link delivers the Software will be free of physical defects. The customer's sole and exclusive remedy and the entire liability of D-Link and its suppliers under this Limited Warranty will be, at D-Link's option, to replace the non-conforming Software (or defective media) with software that substantially conforms to D-Link's functional specifications for the Software or to refund the portion of the actual purchase price paid that is attributable to the Software. Except as otherwise agreed by D-Link in writing, the replacement Software is provided only to the original licensee, and is subject to the terms and conditions of the license granted by D-Link for the Software. Replacement Software will be warranted for the remainder of the original Warranty Period and is subject to the same limitations and exclusions. If a material non-conformance is incapable of correction, or if D-Link determines in its sole discretion that it is not practical to replace the nonconforming Software, the price paid by the original licensee for the non-conforming Software will be refunded by D-Link; provided that the non-conforming Software (and all copies thereof) is first returned to D-Link. The license granted respecting any Software for which a refund is given automatically terminates.

Non-Applicability of Warranty:

The Limited Warranty provided hereunder for Hardware and Software portions of D-Link's products will not be applied to and does not cover any refurbished product and any product purchased through the inventory clearance or liquidation sale or other sales in which D-Link, the sellers, or the liquidators expressly disclaim their warranty obligation pertaining to the product and in that case, the product is being sold "As-Is" without any warranty whatsoever including, without limitation, the Limited Warranty as described herein, notwithstanding anything stated herein to the contrary.

Submitting A Claim:

The customer shall return the product to the original purchase point based on its return policy. In case the return policy period has expired and the product is within warranty, the customer shall submit a claim to D-Link as outlined below:

- The customer must submit with the product as part of the claim a written description of the Hardware defect or Software nonconformance in sufficient detail to allow DLink to confirm the same, along with proof of purchase of the product (such as a copy of the dated purchase invoice for the product) if the product is not registered.
- The customer must obtain a Case ID Number from D-Link Technical Support at 1-877-453-5465, who will attempt to assist the customer in resolving any suspected defects with the product. If the product is considered defective, the customer must obtain a Return Material Authorization ("RMA") number by completing the RMA form and entering the assigned Case ID
- After an RMA number is issued, the defective product must be packaged securely in the original or other suitable shipping package to ensure that it will not be damaged in transit, and the RMA number must be prominently marked on the outside of the package. Do not include any manuals or accessories in the shipping package. DLink will only replace the defective

portion of the product and will not ship back any accessories.

- The customer is responsible for all in-bound shipping charges to D-Link. No Cash on Delivery ("COD") is allowed. Products sent COD will either be rejected by D-Link or become the property of D-Link. Products shall be fully insured by the customer and shipped to D-Link Systems, Inc., 17595 Mt. Herrmann, Fountain Valley, CA 92708. D-Link will not be held responsible for any packages that are lost in transit to D-Link. The repaired or replaced packages will be shipped to the customer via UPS Ground or any common carrier selected by D-Link. Return shipping charges shall be prepaid by D-Link if you use an address in the United States, otherwise we will ship the product to you freight collect. Expedited shipping is available upon request and provided shipping charges are prepaid by the customer. D-Link may reject or return any product that is not packaged and shipped in strict compliance with the foregoing requirements, or for which an RMA number is not visible from the outside of the package. The product owner agrees to pay D-Link's reasonable handling and return shipping charges for any product that is not packaged and shipped in accordance with the foregoing requirements, or that is determined by D-Link not to be defective or non-conforming.

What Is Not Covered:

The Limited Warranty provided herein by D-Link does not cover: Products that, in D-Link's judgment, have been subjected to abuse, accident, alteration, modification, tampering, negligence, misuse, faulty installation, lack of reasonable care, repair or service in any way that is not contemplated in the documentation for the product, or if the model or serial number has been altered, tampered with, defaced or removed; Initial installation, installation and removal of the product for repair, and shipping costs; Operational adjustments covered in the operating manual for the product, and normal maintenance; Damage that occurs in shipment, due to act of God, failures due to power surge, and cosmetic damage; Any hardware, software, firmware or other products or services provided by

anyone other than D-Link; and Products that have been purchased from inventory clearance or liquidation sales or other sales in which D-Link, the sellers, or the liquidators expressly disclaim their warranty obligation pertaining to the product.

While necessary maintenance or repairs on your Product can be performed by any company, we recommend that you use only an Authorized D-Link Service Office. Improper or incorrectly performed maintenance or repair voids this Limited Warranty.

Disclaimer of Other Warranties:

EXCEPT FOR THE LIMITED WARRANTY SPECIFIED HEREIN, THE PRODUCT IS PROVIDED "AS-IS" WITHOUT ANY WARRANTY OF ANY KIND WHATSOEVER INCLUDING, WITHOUT LIMITATION, ANY WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NONINFRINGEMENT.

IF ANY IMPLIED WARRANTY CANNOT BE DISCLAIMED IN ANY TERRITORY WHERE A PRODUCT IS SOLD, THE DURATION OF SUCH IMPLIED WARRANTY SHALL BE LIMITED TO THE DURATION OF THE APPLICABLE WARRANTY PERIOD SET FORTH ABOVE. EXCEPT AS EXPRESSLY COVERED UNDER THE LIMITED WARRANTY PROVIDED HEREIN, THE ENTIRE RISK AS TO THE QUALITY, SELECTION AND PERFORMANCE OF THE PRODUCT IS WITH THE PURCHASER OF THE PRODUCT.

Limitation of Liability:

TO THE MAXIMUM EXTENT PERMITTED BY LAW, D-LINK IS NOT LIABLE UNDER ANY CONTRACT, NEGLIGENCE, STRICT LIABILITY OR OTHER LEGAL OR EQUITABLE THEORY FOR ANY LOSS OF USE OF THE PRODUCT, INCONVENIENCE OR DAMAGES OF ANY CHARACTER, WHETHER DIRECT, SPECIAL, INCIDENTAL OR CONSEQUENTIAL (INCLUDING, BUT NOT LIMITED TO, DAMAGES FOR LOSS OF GOODWILL, LOSS OF REVENUE OR PROFIT, WORK STOPPAGE, COMPUTER FAILURE OR MALFUNCTION, FAILURE OF OTHER

EQUIPMENT OR COMPUTER PROGRAMS TO WHICH D-LINK'S PRODUCT IS CONNECTED WITH, LOSS OF INFORMATION OR DATA CONTAINED IN, STORED ON, OR INTEGRATED WITH ANY PRODUCT RETURNED TO D-LINK FOR WARRANTY SERVICE) RESULTING FROM THE USE OF THE PRODUCT, RELATING TO WARRANTY SERVICE, OR ARISING OUT OF ANY BREACH OF THIS LIMITED WARRANTY, EVEN IF D-LINK HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. THE SOLE REMEDY FOR A BREACH OF THE FOREGOING LIMITED WARRANTY IS REPAIR, REPLACEMENT OR REFUND OF THE DEFECTIVE OR NONCONFORMING PRODUCT. THE MAXIMUM LIABILITY OF D-LINK UNDER THIS WARRANTY IS LIMITED TO THE PURCHASE PRICE OF THE PRODUCT COVERED BY THE WARRANTY. THE FOREGOING EXPRESS WRITTEN WARRANTIES AND REMEDIES ARE EXCLUSIVE AND ARE IN LIEU OF ANY OTHER WARRANTIES OR REMEDIES, EXPRESS, IMPLIED OR STATUTORY.

Governing Law:

This Limited Warranty shall be governed by the laws of the State of California. Some states do not allow exclusion or limitation of incidental or consequential damages, or limitations on how long an implied warranty lasts, so the foregoing limitations and exclusions may not apply. This Limited Warranty provides specific legal rights and you may also have other rights which vary from state to state.

Trademarks:

CE Mark Warning:

This is a Class B product. In a domestic environment, this product may cause radio interference, in which case the user may be required to take adequate measures.

FCC Statement:

This device has been tested for compliance with FCC RF Exposure (SAR) limits in the typical laptop computer configuration and this device can be used in desktop or laptop computers with side mounted USB ports which can provide 2 cm separation distance from the antenna to the body of the user or a nearby person. This device cannot be used with handheld PDAs (personal digital assistants). This device and its antenna must not be co-located or operated in conjunction with any other antenna or transmitter.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communication. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Caution:

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

Industry Canada Notice:

This device complies with Canadian RSS-210

"This Class B digital apparatus complies with Canadian ICES-003"

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

IC statement

Operation is subject to the following two conditions:

- (1) This device may not cause interference and
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

This device has been designed to operate with an antenna having a maximum gain of 2.12 dBi. Antenna having a higher gain is strictly prohibited per regulations of Industry Canada. The required antenna impedance is 50 ohms.

IMPORTANT NOTE:**IC Radiation Exposure Statement:**

This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment. End users must follow the specific operating instructions for satisfying RF exposure compliance.

This EUT is compliant with SAR for general population/uncontrolled exposure limits in IC RSS-102 and had been tested in accordance with the measurement methods and procedures specified in IEEE 1528. This equipment should be installed and operated with minimum distance 1.5cm between the radiator & your body.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

For products available in the USA/Canada market, only channel 1~11 can be operated. Selection of other channels is not possible.

Règlement d' Industry Canada

Les conditions de fonctionnement sont sujettes à deux conditions:

(1)Ce périphérique ne doit pas causer d'interférence et.

(2)Ce périphérique doit accepter toute interférence, y compris les interférences pouvant perturber le bon fonctionnement de ce périphérique.

D-Link®

Ver. 1.10 (E)
