LIMITED HARDWARE WARRANTY

D-Link provides Limited Warranty for its product only to the person or entity that originally purchased the product from D-Link or its authorized reseller or distributor. D-Link will fulfill the warranty obligations according to the local warranty policy of the country where you purchased your D-Link product.

The warranty period starts on the date of purchase from D-Link or its authorized reseller or distributor. You may be required to provide a proof of purchase as a condition of receiving a warranty service. Your sales or delivery receipt, showing the date of purchase of the product, is your proof of purchase. You are entitled to warranty service if required within the warranty period under the terms and conditions of this document.

IMPORTANT:

The content of **“Product Type”** listed above is subject to change; please refer to the website <http://warranty.dlink.com> for the latest updates.

LIMITED HARDWARE WARRANTY

D-Link’s sole obligation shall be to repair or replace the defective Hardware (or any part thereof) at no charge to the original owner. Such repair or replacement will be rendered at an Authorized D-Link Service Office (Service Office). The replacement Hardware need not be new or of an identical model or part; D-Link may in its discretion replace the defective Hardware with any reconditioned product that D-Link reasonably determines substantially equivalent or superior in all material respects to the defective Hardware. The warranty period shall extend for an additional ninety (90) days after any repaired or replaced Hardware is delivered. If a material defect is incapable of correction, or if D-Link determines in its discretion that it is not practical to repair or replace the defective Hardware, the price paid by the original purchaser will be refunded upon return to D-Link of the defective Hardware. All Hardware shall become the property of D-Link upon replacement or refund.

LIMITED SOFTWARE WARRANTY

D-Link warrants that the software portion of the product (Software) will substantially conform to its then current functional specifications from the date of original delivery for a period of ninety (90) days, if properly installed and operated on approved hardware. D-Link’s sole obligation shall be to replace the non-conforming Software. The replacement Software is provided only to the original licensee, and is subject to the terms and conditions of the license granted by D-Link. The warranty period shall extend for an additional ninety (90) days after any replacement Software is delivered. If a material non-conformance is incapable of correction, or if D-Link determines in its sole discretion that it is not practical to replace the non-conforming Software, the price paid by the original licensee will be refunded, provided that the non-conforming Software (and all copies thereof) is first returned to D-Link. The license granted respecting any Software for which a refund is given automatically terminates.

WHAT YOU MUST DO FOR WARRANTY SERVICE

Any claim under this limited warranty must be submitted in writing before the end of the warranty period to a Service Office with a written description of the Hardware defect or Software nonconformance in sufficient detail to allow D-Link to confirm the same. The original product owner must obtain a Return Material Authorization (RMA) number from the Service Office and, if requested, provide written proof of purchase. After an RMA number is issued, the defective product must be packaged securely in the original or other suitable shipping package to avoid damage in transit with RMA number prominently marked outside the package. The packaged product shall be insured and shipped to a Service Office with shipping costs prepaid. D-Link may reject or return any product not packaged and shipped in strict compliance with foregoing requirements, or for which an RMA number not visible outside the package. The product owner agrees to pay reasonable handling and return shipping charges for product not packaged and shipped in accordance with foregoing requirements, or that determined by D-Link not to be defective or non-conforming.

WHAT IS NOT COVERED

The limited warranty provided by D-Link **does not cover:**

Products that have been subjected to abuse, accident, alteration, modification, tampering, negligence, misuse, faulty installation, lack of reasonable care, repair or service in any way that is not contemplated in the documentation for the product, or if the model or serial number has been altered, tampered with, defaced or removed; damage that occurs in shipment, due to act of God, failures due to power surge, and cosmetic damage; and any hardware, software, firmware or other products or services provided by anyone other than D-Link or any Service Office.

DISCLAIMER

EXCEPT FOR THE LIMITED WARRANTY SPECIFIED HEREIN, THE PRODUCT IS PROVIDED “AS-IS” WITHOUT ANY WARRANTY OF ANY KIND INCLUDING, WITHOUT LIMITATION, ANY WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NON-INFRINGEMENT.

LIMITATION OF LIABILITY

TO THE MAXIMUM EXTENT PERMITTED BY LAW, D-LINK IS NOT LIABLE UNDER ANY CONTRACT, NEGLIGENCE, STRICT LIABILITY OR OTHER LEGAL OR EQUITABLE THEORY FOR ANY LOSS OF USE OF THE PRODUCT, INCONVENIENCE OR DAMAGES OF ANY CHARACTER, WHETHER DIRECT, SPECIAL, INCIDENTAL OR CONSEQUENTIAL (INCLUDING, BUT NOT LIMITED TO, DAMAGES FOR LOSS OF GOODWILL, WORK STOPPAGE, COMPUTER FAILURE OR MALFUNCTION, LOSS OF INFORMATION OR DATA CONTAINED IN, STORED ON, OR INTEGRATED WITH ANY PRODUCT RETURNED TO D-LINK FOR WARRANTY SERVICE) RESULTING FROM THE USE OF THE PRODUCT, RELATING TO WARRANTY SERVICE, OR ARISING OUT OF ANY BREACH OF THIS LIMITED WARRANTY, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. THE SOLE REMEDY FOR A BREACH OF THE FOREGOING LIMITED WARRANTY IS REPAIR, REPLACEMENT OR REFUND OF THE DEFECTIVE OR NON-CONFORMING PRODUCT.

GOVERNING LAW

The Limited Warranty herein shall be governed by the laws of the Republic of Singapore.

GARANTIA DE HARDWARE LIMITADA

A única obrigação da D-Link será reparar ou substituir o Hardware defeituoso (ou qualquer parte do mesmo) . Esse reparo ou substituição será executado em uma Assistência Técnica Autorizada da D-Link. A D-Link poderá, a seu critério, substituir o Hardware defeituoso por qualquer produto que a D-Link considere equivalente ou superior em todos os aspectos materiais ao Hardware defeituoso. O Período da Garantia será prorrogado por mais noventa (90) dias após o Hardware reparado ou substituído por entrega. Se um defeito material for incapaz de ser corrigido, ou se a D-Link determinar, segundo seu próprio critério, que não será prático reparar ou substituir o Hardware defeituoso, o valor pago pelo comprador original será restituído com a devolução à D-Link do Hardware defeituoso. Todo Hardware tornar-se-á propriedade da D-Link após a substituição ou reembolso.

GARANTIA LIMITADA DO SOFTWARE

A D-Link garante que a parte de software deste produto (“Software”) será substancialmente compatível com as suas especificações atuais de funcionamento da data da entrega original por um período de noventa (90) dias, desde que adequadamente instalado e operado em hardware aprovado. A única obrigação da D-Link será substituir o Software não conforme. O Software substituído será fornecido somente ao licenciado original e estará sujeito aos termos e condições da licença concedida pela D-Link. O período da garantia será prorrogado por mais noventa (90) dias após qualquer Software substituído ser entregue. Se uma não conformidade de material for incapaz de ser corrigida, ou se a D-Link determinar, segundo seu próprio critério, que não é possível substituir o Software não conforme, o preço pago pelo licenciado original será restituído pela D-Link, desde que o Software não conforme (e todas as suas cópias) sejam primeiramente devolvidos para a D-Link. A licença concedida em relação a qualquer Software para o qual o reembolso for feito terminará automaticamente.

O QUE VOCÊ DEVE FAZER PARA O SERVIÇO DE GARANTIA

Qualquer reclamação sujeita a esta garantia limitada deverá ser apresentada por escrito antes do término do Período de Garantia a uma Assistência Técnica Autorizada com uma descrição por escrito do defeito do Hardware ou não conformidade do Software com detalhes suficientes para permitir que a D-Link confirme o mesmo. O proprietário original do produto precisará ligar para o Suporte Técnico e apresentar a Nota Fiscal de Venda para obter um número de Autorização de RMA (RMA - Return Material Authorization). Após a emissão do número de RMA, o produto defeituoso deve ser embalado de forma segura, na caixa original ou em embalagem apropriada, de forma a garantir que não seja danificado durante o transporte, devendo o número do RMA ser marcado de forma visível no lado externo da embalagem. O produto embalado deverá ser remetido para uma Assistência Técnica Autorizada. A D-Link poderá rejeitar ou devolver qualquer produto que não esteja embalado ou enviado estritamente de acordo com os requerimentos anteriores, ou quando o número da RMA não for visível do lado de fora da embalagem. O proprietário do produto irá pagar os custos de manuseio e devolução de qualquer produto que não tenha sido empacotado e enviado de acordo com os requerimentos anteriores, ou que tenham sido avaliados pela D-Link como não tendo defeitos ou não conformes.

O QUE NÃO ESTÁ COBERTO

A garantia limitada fornecida pela D-Link **não cobre**:

Produtos, que no julgamento da D-Link tenham sido sujeitos a abusos, acidentes, alteração, modificação, adulteração, negligência, uso indevido, instalação defeituosa, falta de cuidado, qualquer conserto ou serviço que não esteja contemplado na documentação do produto, ou se o modelo ou número de série tiver sido alterado, adulterado, apagado ou removido; danos que ocorram no transporte, sejam por força maior, falhas devidas a falta de energia, e danos aparentes; e qualquer hardware, software, firmware ou outros produtos ou serviços fornecidos por qualquer outro que não a D-Link ou qualquer Escritório de Serviços.

AVISO DE ISENÇÃO DE RESPONSABILIDADE

EXCETO PELA GARANTIA LIMITADA AQUI ESPECIFICADA, O PRODUTO É FORNECIDO “NO ESTADO EM QUE SE ENCONTRA” SEM UMA GARANTIA DE QUALQUER TIPO SEJA QUAL FOR, INCLUINDO, SEM LIMITAÇÕES, QUALQUER GARANTIA MERCANTIL, DE ADEQUAÇÃO A UM PROPÓSITO PARTICULAR E NÃO INFRAÇÃO.

LIMITAÇÃO DE RESPONSABILIDADE

ATÉ A EXTENSÃO MÁXIMA PERMITIDA PELA LEI, A D-LINK NÃO É RESPONSÁVEL SOB NENHUM CONTRATO, NEGLIGÊNCIA, ESTRITA RESPONSABILIDADE OU OUTRA TEORIA LEGAL OU EQUIVALENTE POR QUALQUER PERDA PELO USO DO PRODUTO, INCONVENIENTOS OU DANOS DE QUALQUER TIPO, SEJAM DIRETOS, ESPECIAIS, ACIDENTAIS OU CONSEQUENCIAIS (INCLUINDO, MAS NÃO LIMITADOS A, DANOS POR PERDAS DE CLIENTES, PERDA DE RECEITA OU LUCROS, INTERRUPTÇÃO DE TRABALHOS, AVÁRIAS DE COMPUTADORES OU MAU FUNCIONAMENTO, AVÁRIAS EM OUTROS EQUIPAMENTOS OU PROGRAMAS DE COMPUTADORES AOS QUAIS O PRODUTO DA D-LINK ESTA CONECTADO, PERDA DE INFORMAÇÕES OU DADOS CONTIDOS OU ARMAZENADOS OU INTEGRADOS A QUALQUER PRODUTO QUE TENHA SIDO DEVOLVIDO A D-LINK PARA SERVIÇO DE GARANTIA) RESULTANTES DO USO DESTE PRODUTO, RELACIONADO COM A GARANTIA DE SERVIÇO, OU QUE SE APLIQUEM ATRAVÉS DE UMA QUEBRA DESTA GARANTIA LIMITADA, MESMO QUE A D-LINK TENHA SIDO AVISADA DA POSSIBILIDADE DESTES PREJUÍZO. A ÚNICA ALTERNATIVA PARA UMA QUEBRA DESTA GARANTIA É O CONCERTO, SUBSTITUIÇÃO OU DEVOLUÇÃO DO PRODUTO DEFEITUOSO OU NÃO-CONFORME.

LEI REGENTE

Esta Garantia Limitada será regulada pelas leis do país onde o produto foi adquirido.

SAFETY INSTRUCTIONS

Please adhere to the following safety guidelines to help ensure your own personal safety and protect your system from potential damage. Any acts taken that are inconsistent with ordinary use of the product, including improper testing, etc., and those not expressly approved by D-Link may result in the loss of product warranty. Unless expressly approved by an authorized representative of D-Link in writing, you may not and may not permit others to:

- Disassemble or reverse engineer the device or attempt to derive source code (underlying ideas, algorithms, or structure) from the device or from any other information provided by D-Link, except to the extent that this restriction is expressly prohibited by local law.
- Modify or alter the device.
- Remove from the device any product identification or other notices, including copyright notices and patent markings, if any.

- Operate the device only from the type of external power source indicated on the electrical ratings label.
- To help avoid damaging your device, be sure the voltage selection switch (if provided) on the power supply is set to match the power available at your location.
- Also be sure that attached devices are electrically rated to operate with the power available in your location.
- Use only approved power cable(s). If you have not been provided a power cable for your device or for any AC-powered option intended for your device, purchase a power cable that is approved for use in your country and is suitable for use with your device. The power cable must be rated for the device and for the voltage and current marked on the device's electrical ratings label. The voltage and current rating of the cable should be greater than the ratings marked on the device.
- To help prevent an electrical shock, plug the device and peripheral power cables into properly grounded electrical outlets. These cables are equipped with three-prong plugs to help ensure proper grounding. Do not use adapter plugs or remove the grounding prong from a cable. If you must use an extension cable, use a 3-wire cable with properly grounded plugs.
- Observe extension cable and power strip ratings. Ensure that the total ampere rating of all products plugged into the extension cable or power strip does not exceed 80 percent of the ampere ratings limit for the extension cable or power strip.
- To help protect your device from sudden, transient increases and decreases in electrical power, use a surge suppressor, line conditioner, or uninterruptible power supply (UPS).
- Do not modify power cables or plugs. Consult a licensed electrician or your power company for site modifications. Always follow your local/national wiring rules.
- When connecting or disconnecting power to hot-pluggable power supplies, if offered with your device, observe the following guidelines:
 - Install the power supply before connecting the power cable to the power supply.
 - Unplug the power cable before removing the power supply.
 - If the system has multiple sources of power, disconnect power from the device by unplugging all power cables from the power supplies.
- Service/Disassembly**
 - Do not service any product except as expressly set forth in your system documentation.
 - Opening or removing covers that are marked with the triangular symbol with a lightning bolt may expose you to an electrical shock. Only a trained service technician should service components inside these compartments.
 - To reduce the risk of electrical shock, never disassemble this device. None of its internal parts are user-replaceable; therefore, there is no reason to access the interior.
 - Do not spill food or liquids on your system components, and never operate the device in a wet environment. If the device gets wet, see the appropriate section in your troubleshooting guide or contact your trained service provider.
 - Use the device only with approved equipment.
 - Move products with care; ensure that all casters and/or stabilizers are firmly connected to the system. Avoid sudden stops and uneven surfaces.
- Do not use this device near water (e.g., near a bathtub, sink, laundry tub, fish tank, in a wet basement or near a swimming pool).
- Do not use this device in areas with high humidity.
- This device must not be subjected to water or condensation.
- Keep your device away from radiators and heat sources. Also, do not block cooling vents.

- Cleaning**
 - Always unplug the device before cleaning this device.
 - Do not use liquid or aerosol cleaners of any kind. Use only compressed air that is recommended for electronic devices.
 - Use a dry cloth for cleaning.
- Environment**
 - Do not use this device near water (e.g., near a bathtub, sink, laundry tub, fish tank, in a wet basement or near a swimming pool).
 - Do not use this device in areas with high humidity.
 - This device must not be subjected to water or condensation.
 - Keep your device away from radiators and heat sources. Also, do not block cooling vents.
- CE Marking**
 - Do not use liquid or aerosol cleaners of any kind. Use only compressed air that is recommended for electronic devices.
 - Use a dry cloth for cleaning.

NOTICE OF WIRELESS RADIO LAN USAGE IN THE EUROPEAN COMMUNITY (ONLY FOR WIRELESS PRODUCT)

- At the time of writing this addendum, some countries such as Italy, Greece, Portugal and Spain hasn't allowed operation of radio devices in the 5GHz bands, although operation of 2.4GHz radio devices are allowed. Please check with your local authority to confirm.
- This device is restricted to indoor use when operated in the European Community using channels in the 5.15-5.25 GHz-band to reduce the potential for interference.
- This device is a 2.4 GHz wideband transmission system (transceiver), intended for use in all EU member states and EFTA countries, except in France where restrictive use applies. This device may not be used for setting up outdoor radio links in France and in some areas the RF output power may be limited to 10 mW EIRP in the frequency range of 2454 – 2483.5 MHz. For detailed information the end-user should contact the national spectrum authority in France.
- To remain in compliance with European National spectrum usage regulations, frequency and channel limitations will be applied on the products according to the country where the equipment will be deployed.
- This device is restricted from functioning in Ad-hoc mode while operating in 5GHz. Ad-hoc mode is direct peer-to-peer communication between two client devices without an Access Point.
- Access points will support DFS (Dynamic Frequency Selection) and TPC (Transmit Power Control) functionality as required when operating in 5GHz within the EU.

IMPORTANT INFORMATION

Important information regarding your internet subscription

Users who subscribe to limited or "pay as you use" broadband internet access, in the WAN configuration settings, there is a parameter called Maximum idle timer. This parameter controls how many seconds of inactivity before dropping connection to the internet. The default setting is "0" which disables this functionality and the internet will be connected all the time. We suggest that you should change the Maximum idle timer to "300" (5 minutes) so that the device will drop the line after 5 minutes of inactivity and keep usage costs down. Users who subscribe to unlimited broadband internet access. You can just leave the parameter unchanged or enable Auto-reconnect to be always on line. Technical Notes: The Maximum idle timer is only relevant if your ISP is using PPPoE connection.

Важная информация относительно подключения к Интернет

Для пользователей широкополосного доступа в Интернет, ограниченного по времени или с повышенной оплатой.

В настройках WAN есть параметр, который называется Maximum idle timer. Этот параметр определяет время в секундах, по истечению которого соединение в Интернет будет разорвано, если соединение было не активно. По умолчанию установлено значение "0", что отключает данную функцию, и соединение с Интернет будет установлено постоянно. Рекомендуется поменять значение Maximum idle timer на "300" (5 минут) для того, чтобы устройство разрывало соединение после 5 минут простоя, и таким образом экономило средства на оплату подключения.

Для пользователей неограниченного по времени широкополосного доступа в Интернет можно оставить данный параметр без изменения или включить функцию Auto-reconnect для поддержки постоянного подключения.

Технические замечания:

Параметр Maximum idle timer имеет действие, только если провайдер услуг Интернет использует подключение PPPoE.

Información importante acerca de la suscripción a Internet

Los usuarios suscritos, en los parámetros de configuración WAN, a un acceso a Internet de banda ancha limitado o de "pago por uso", encontrarán un parámetro llamado Maximum idle timer. Este

parámetro controla cuántos segundos de inactividad se permiten antes de que se interrumpa la conexión a Internet. El valor por defecto es "0", y desactiva esta funcionalidad, con lo que se seguirá conectado sin interrupciones de internet. Se recomienda que se modifique el valor de Maximum idle timer a "300" (5 minutos), así el dispositivo cortará la línea tras 5 minutos de inactividad y se reducirán los costes por uso.

Los usuarios suscritos a un acceso a internet de banda ancha limitado pueden dejar este parámetro como se encuentra o bien activar Auto-reconnect para estar siempre conectados.

Notas técnicas:

Maximum idle timer sólo es relevante si el ISP usa una conexión PPPoE.

Informações importantes referentes à sua assinatura de Internet

Usuários que assinam o serviço de Internet de banda larga limit ado ou "pay as you use" Nos ajustes de configuração de WAN, há um parâmetro denominado Maximum idle timer (Cronômetro de tempo de inatividade máximo). Este parâmetro controla o número de segundos de inatividade antes que a conexão com a Internet seja encerrada. A configuração padrão é "0", que desabilita esta funcionalidade e a Internet ficará conectada o tempo todo. Sugerimos que você modifique o Maximum idle timer para "300" (5 minutos), de tal maneira que o dispositivo será desconectado após cinco minutos de inatividade e visando manter os custos de utilização baixos. Usuários que assinam o acesso de Internet de banda larga ilimitado Basta deixar este parâmetro como está ou habilitar o Auto-reconnect (Reconexão automática) para estar sempre on-line.

Observações Técnicas:

O Cronômetro de tempo de inatividade máximo só é relevante se o seu provedor está utilizando uma conexão PPPoE.

Information importante concernant votre abonnement internet

Les utilisateurs qui ont souscrit un abonnement limité ou avec paiement uniquement à l'utilisation. Au niveau du paramétrage de la configuration WAN, il y a un paramètre appelé Maximum idle timer. Ce paramètre contrôle le nombre de secondes d'inactivité avec la coupure de la connexion à Internet. Le paramètre par défaut est à "0", ce qui désactive cette fonctionnalité et vous connecte à internet tout le temps. Nous vous conseillons de changer le Maximum idle timer à "300" (5 minutes) de sorte que la ligne soit coupée après 5 minutes d'inactivité pour limiter les coûts.

Aux utilisateurs qui ont souscrit un abonnement internet illimité. Vous pouvez laisser ce paramètre à 0 ou valider l'Auto-reconnexion pour toujours être en ligne. Note technique : Le Maximum idle timer est utile uniquement si votre FAI utilise une connexion PPPoE.

關於互聯網訂約的重要資訊

選用限制或“按使用情況付費”的寬帶互聯網接入用戶，在WAN Configuration設置中，有一個稱為“最大閒置計時器”的參數。該參數控制關互聯網連接之前系統處於閒置狀態的秒數。默認設置為“0”，表示禁用此功能，使互聯網連接處於始終連接狀態。我們建議您將“最大閒置計時器”設置為300秒（5分鐘），這樣設備會在閒置5分鐘後斷開連接，從而節省費用。

適用於不限制帶寬的用戶：如果您希望保留該參數，或是啟用“自動重連接”功能，則應使設備始終在線上，您只需保留該參數。僅在ISP使用PPPoE連接時有效。

技術提示：“最大閒置計時器”僅在ISP使用PPPoE連接時有效。

DISPOSING AND RECYCLING YOUR PRODUCT

ENGLISH

This symbol on the product or packaging means that according to local laws and regulations the product may not be disposed of as general waste but must be sent for recycling.
