Top and Bottom Views

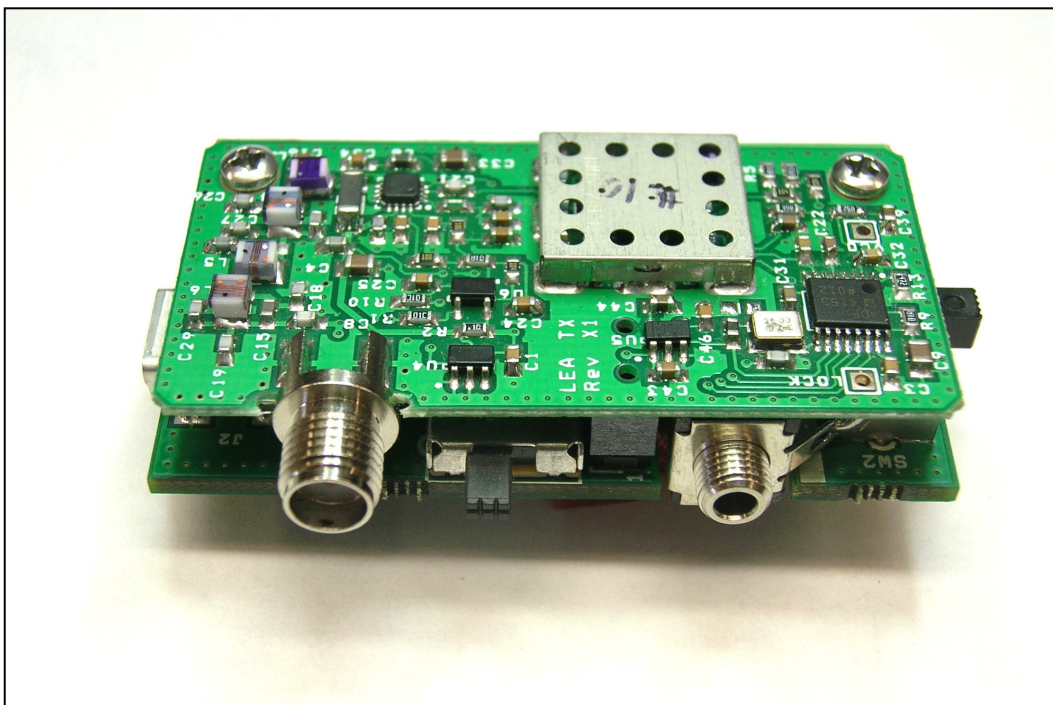

The photograph shows the LEA TX Rev X1 circuit board, which is a green printed circuit board (PCB) populated with various electronic components. A large, rectangular silver heat sink is mounted in the center. To the right, a threaded metal connector is visible. The board is populated with numerous resistors (labeled R1 through R10), capacitors (labeled C1 through C34), integrated circuits (labeled U1 through U6), and other components. The text "LEA TX Rev X1" is printed on the board. The board is shown against a white background.
