RE: General Dynamics Itronix Corporation  
Request for Short Term Confidentiality  
FCC ID: KBCIX-512NM, KBCIX-WT11

To Whom It May Concern,

Since June 15, 2004, (Public Notice DA 04-1705) the FCC has allowed holding any exhibit confidential for a short period of time (45 days) until the device is introduced to the public for marketing.

General Dynamics Itronix Corporation requests that the following files related to the above referenced certification application are temporarily withheld from public disclosure.

ALL test setup photos  
ALL external product photos  
ALL user manuals  
ALL Internal product photos

General Dynamics Itronix Corporation anticipates offering the product to the public in the near future and will notify the FCC when the product is available if less than 45 days to the public so the TCB/Commission may place appropriate application files on its web site for public dissemination.

If there are any questions of concerns, please do not hesitate to contact me at the email address below.

Sincerely,

Mark Harwood,  
Senior Compliance Engineer
