Overview

Class II permissive change to allow this radio module to be installed in a different host device, the GD8000 rugged laptop computer and to allow a new RF exposure condition. The KBCIX-GOBI2 radio will be co-located with previously certified radios KBCIX-WT11 and KBCIX-512AN within the GD8000. A minimum of 20 cm separation distance from the antenna(s) installed in the GD8000 to all persons must be maintained. MPE estimates have been submitted in support of these new co-located configurations.

Request for confidentiality.

A letter listing the applicable modular requirements was submitted.

Recommendation

All items have been resolved and completed to my satisfaction; therefore I recommend this application for approval.
