RE: FCC ID: KBCIX-MC5725

Dear Application Examiner:

After completing the exhibit uploads for a recent C2PC filing, we discovered that one of the User Manual documents contained an error (actual file name: **IX270 Radio Specific Safety Information MC8775Rev1.pdf**, uploaded as **User Manual 2**) We have received a corrected document from the customer and would like to supercede the existing document with the revised one. The file name that should be superceded is **IX270 Radio Specific Safety Information MC8775Rev1.pdf**

Best regards,

Northwest EMC, Inc.
