Limited Modular Approval Antenna Attestation

The Itronix IX600 rugged laptop computer (market name "VRI") is being integrated with a Novatel PCMCIA Radio as a Limited Modular Approval under the FCC ID: KBCIX-NW620. The Novatel PCMCIA Radio contains an integrated antenna; however the integrated antenna is disabled prior to shipment to the end customer when the Itronix IX600 Laptop PC antenna cable with unique connector is coupled to the Novatel PCMCIA Radio integrated within the IX600 PCMCIA Hatch.

Sincerely,

Richard Sargent
