Warnings and Safety Information

WARNING It is important that only authorized Itronix personnel attempt repairs on Itronix equipment as this might void any maintenance contract with your company. Unauthorized service personnel might be subject to shock hazard on some Itronix equipment if removal of protective covers is attempted. Changes or Modifications not expressly approved by the party responsible for compliance could void the users authority to operate the equipment.

Internal radio(s) may display an individual FCC Identifier which are not applicable to this configuration. Only the FCC Identifier(s) (KBCIX-NW620, KBCIX600-IWLBT, KBCIX600-IWL and KBCIX600-BT) displayed on the label located on the bottom side of the IX600 Laptop PC apply to this PC configuration. The radios installed in the IX600 Laptop PC must not be co-located or operating in conjunction with any other antenna or transmitter than specified within the FCC ID Certification(s) as displayed on the label.

Safety Information

This Laptop PC configuration contains a WWAN radio transmitter. When using the WWAN transmitter, a minimum separation distance of 20 cm must be maintained between the back of the display screen and all users/bystanders. The WWAN transmitter should be turned off before carrying the Laptop PC in order to comply with FCC/IC RF exposure requirements.
