

## Warnings and Cautions

**WARNING** It is important that only authorized Itronix personnel attempt repairs on Itronix equipment as this might void any maintenance contract with your company. Unauthorized service personnel might be subject to shock hazard on some Itronix equipment if removal of protective covers is attempted.

The product you have purchased is powered by a rechargeable battery. The battery is recyclable and, under various state and local laws, it may be illegal to dispose of this battery into the municipal waste stream. Do not crush the battery or place it in a fire. Check with your local solid-waste officials for details on recycling options or proper disposal.

**CAUTION** Internal components of the GoBook (IX550) computer will be damaged if exposed to contaminants. When dust covers, the PC card door, or the battery door are open on the computer, shield the unit from all contaminants such as liquids, rain, snow, and dust.

**WARNING** *“In order to comply with the FCC RF exposure requirements this device must be operated with a minimum separation distance of 4 cm between the user/nearby persons and the antenna in its intended vertical operating position.”*

**“The antenna location is fixed in the upper left edge of the display screen and is not to be relocated”**

*“The equipment has been approved to [Commission Decision “CTR21”] for pan-European single terminal connection to the Public Switched Telephone Network (PSTN). However, due to differences between individual PSTNs provided in different countries the approval does not, of itself, give an unconditional assurance of successful operation on every PSTN network termination point.*

*In the event of problems, you should contact your equipment supplier in the first instance.*

**CAUTION** This device has been tested and found to be compliant with FCC MPE (Maximum Permissible Exposure) requirements. In order to comply with FCC MPE requirements the user and all nearby persons must maintain a 20cm separation distance from the antenna when using this device with vehicle cradle. See Section 7 for important information about vehicle-mounted antennas.
