Re: Action requested - Certification under Parts 22.901(d), 24E & 15.247 of physically co-located mobile transmitters that do not transmit simultaneously.  
FCC ID: KBCIX260-PROAC555  
Grantee: ITRONIX, Corporation

Gentlemen:

On behalf of ITRONIX, Corporation we request Certification for the above referenced device which contains two internally integrated co-located transmitters. The IX260 is a ruggedized laptop PC which contains the following:

- 1.) Cellular & PCS Dual band GPRS PCMCIA transmitter previously certified by Sierra Wireless, Inc., FCC ID: NCNAC555 operating under Parts 22.901(d) and 24E.
- 2.) WLAN 802.11(b) & (g) Mini PCI type, previously Certified Intentional Radiator by Intel, Corp., FCC ID: PD9WM3B2200BG under Part 15.247 for DTS devices.

For Item 1, above, EMC test reports prepared by Celltech Labs covering radiated spurious and harmonic emissions are submitted supporting Certification under Parts 22 and 24. The test reports submitted were prepared originally for the FCC ID: KBCIX260MPIA555BT. The newly identified device is the physically and electrically the same as the original device with the exception of the WLAN being replaced and no Bluetooth Intentional radiator in this configuration.

For Item 2, the new WLAN module we have submitted the EMC test report covering radiated spurious and harmonic emissions for this Intentional Radiator and its only antenna under Part 15. No simultaneous transmit data is submitted as the transmitters in this configuration do not transmit simultaneously. MPE calculations are submitted for the individual transmitters.

We will be referring to and submitting the original manufacturers Certification test data contained in the original filed FCC Certification exhibits where appropriate. The two above referenced OEM transmitter modules would be considered "identical" to the originally approved device as defined by Part 2.908.

Please contact the undersigned for a prompt response should you requires any additional information concerning this request for Certification. We sincerely thank you for your time and consideration of this application.

Sincerely,

  
Rod Munro

RE: ITRONIX CORPORATION  
FCC ID:KBCIX260-PROAC555  
Request for Confidentiality

Gentlemen:

In accordance with 0.459 of CFR 47, ITRONIX CORPORATION hereby requests confidentiality of the, (Block Diagrams, Schematics, Parts List, Tune Up Procedure, Operational Description) attachments for the subject application.

These documents contain detailed system and equipment description and related information about the product which ITRONIX CORPORATION considers to be proprietary, confidential, and a custom design and, otherwise, would not release to the general public. Since this design is a basis from which future technological products will evolve, ITRONIX CORPORATION considers that this information would be of benefit to its competitors, and that the disclosure of the information in these documents would give competitors an unfair advantage in the market.

Sincerely,

Mark Harwood

To Whom It May Concern:

Please be advised that Itronix Corporation authorizes Rod Munro of Spectrum Technology Corporation to act on our behalf, until otherwise notified, for applications submitted to American Telecommunications Certification Body, Inc. (ATCB).

We certify that we are not subject to denial of federal benefits, that includes FCC benefits, pursuant to Section 5301 of the Anti-Drug Abuse ACT of 1988, U.S.C. 862. Further, no party, as defined in 47 CFR 1.2002(b), to the application is subject to denial of federal benefits, that includes FCC benefits.

Thank you for your attention to this matter.
