<b>Agent</b>	Rod Munro
<b>Approval Type</b>	Class II Permissive Change
<b>Equipment Class</b>	DTS Digital Transmission System
<b>Rule Part</b>	15.247

**Overview**

The IX270 Rugged Host PC is a platform designed for use with several different radio types. These may include one or more of the following radio types: Bluetooth, WLAN and WAN (either CDMA or GSM). Certification applications have either been granted or are pending for; but not limited to, combinations of the following devices listed by FCC ID(s): KBCIX270-WL3945 (WLAN), KBCIX270-BT2022 (Bluetooth), KBCIX270-MC5720 (WAN), KBCIX-MC5725 (WAN), and KBCIX-MC8775 (WAN). Only one radio of each type, Bluetooth, WLAN or WAN, can be installed and used at a time. Co-located MPE calculations and other exhibits for each possible combination of WLAN, Bluetooth and WAN are included in the applicable Certification filings.

**Recommendation**

All items have been resolved and completed to my satisfaction; therefore I recommend this application for approval.
