Re: Applicant: Itronix, Corporation
FCC ID: KBCIX270-WL3945
Change in identification of equipment under Part 2.933(b)

TCB Committee,

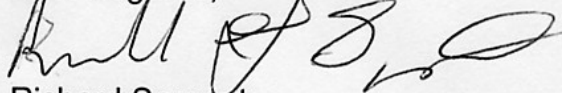

On behalf of Itronix Corporation we request a grant of Certification for the above referenced device under Parts 15.247 & 15.407.

The original identification FCC ID: PD9WM3945ABG is applicable to this device and was granted October 12, 2005.

The test data originally filed by Intel Corporation continues to be representative of the newly identified device as there are no changes in hardware or antennas by the Grantee. This is a change in identification only for the newly identified device which is physically and electrically identical as defined by Part 2.907.

Please let me know if you should require any further information.

Best Regards,

Richard Sargent
