Agent	Rod Munro
Approval Type	Class II Permissive Change
Equipment Class	DTS Digital Transmission System/ NII Unlicensed National Information Infrastructure TX
Rule Part	15.247, 15.407

Overview

The IX270 Rugged Host PC is a platform designed for use with several different radio types. These may include one or more of the following radio types: Bluetooth, WLAN and WAN (either CDMA or GSM). Certification applications have either been granted or are pending for; but not limited to, combinations of the following devices listed by FCC ID(s): KBCIX270-WL3945 (WLAN), KBCIX270-BT2022 (Bluetooth), KBCIX270-MC5720 (WAN), KBCIX-MC5725 (WAN), and KBCIX-MC8775 (WAN). Only one radio of each type, Bluetooth, WLAN or WAN, can be installed and used at a time. Co-located MPE calculations and other exhibits for each possible combination of WLAN, Bluetooth and WAN are included in the applicable Certification filings.

Recommendation

All items have been resolved and completed to my satisfaction; therefore I recommend this application for approval.
