

# Containment Transmit Data Bit Timing/Encoding

The figure below illustrates the timing used for data bit transmission:

|                    | "ON" Time     |
|--------------------|---------------|
| T <sub>B</sub> = 0 | 1.4ms ± .2 ms |
| T <sub>B</sub> = 1 | 4.0ms ± .2 ms |
