Attention: Application Examiner
 Reviewing Engineer

Applicant: Sensus Metering Systems

FCC ID: **KCH520F**
900MHz DTS RF Module

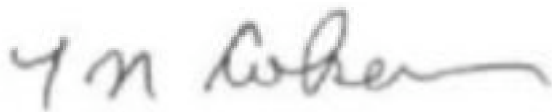

Re: Exemption of requirement for MPE information on grant and in user manual

To whom it may concern,

The Sensus RF module is used in utility meters that transmit at very low duty cycles, typically two 160 msec bursts every 6 hours.

Per FCC's Knowledge Data Base inquiry number **848176**, attached, for very low duty cycle utility meters, grant notes and user manual notes referencing MPE limits are not required.

Sincerely,

THOMAS N. COKENIAS
EMC Consultant
Agent for Sensus Metering Systems
