Regarding: Changes to Boundary Plus 2.0 Products

To Whom it May Concern,

We are requesting that the original FCC ID: KE3-3003600 and IC: 2721A-3003600 be dismissed. We have made changes to the product which require a re-submission rather than a Permissive Change and we do not wish use new FCC and IC Certification numbers. Changes were required for product operation and the products as originally certified were never marketed or sold under the existing FCC and IC ID numbers. After the original application is dismissed, we wish to re-file and use the same FCC and IC ID numbers.

Thanks for your consideration.

Sincerely,

RADIO SYSTEMS
