

**Model Differences**

Date: December 17, 2019

Subject: Model Differences for: FCC ID: KE3-3003643, IC: 2721A-3003643

To Whom it May Concern:

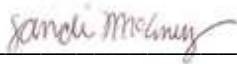

Radio Systems Corporation will be using two different model numbers for the FCC and IC ID Numbers listed above:

- 1. Model RAC00-16949
- 2. Model RAC00-16992

Both models are physically and electrically identical. The model designation signifies whether the transmitter is transmitting a signal to activate the pet collar or a masked signal that will not activate the pet collar.

Model RAC00-16949 transmits a signal that activates the pet collar, and Model RAC00-16992 transmits a signal that does not activate the pet collar.

Sincerely,

By:
