RE : FCC ID: **KE3-PTA14295**

Dear Applications Examiner:

We are requesting Limited Modular Approval for the Radio Systems Transmitter, FCC ID : KE3-PTA14295.

	FCC Modular Approval Checklist	YES	NO
i	The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly;		X (See Note 1 below)
ii	The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal;	x	
iii	The module must contain power supply regulation on the module;	x	
iv	The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per Sections 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b);	x	
v	The module must demonstrate compliance in a stand-alone configuration;		X (See Note 2 below)
vi	The module must be labelled with its permanently affixed FCC ID label, or use an electronic display (See KDB Publication 784748 about labelling requirements);	x	

Testing Tomorrow's Technology

vii	The module must comply with all specific rules applicable to the transmitter including all the conditions provided in the integration instructions by the grantee;	x	
viii	The module must comply with RF exposure requirements (see discussions below).	x	

Note 1 : The transmitter does not have its own RF shielding, however the Grantee will retain control over the final installation of the device and compliance of the end product is always ensured.”

Note 2 : The EUT was not tested in a standalone configuration, instead it was tested in the host device as it would normally be installed ; the Grantee will retain control over the final installation of the device and compliance of the end product is always ensured

Sincerely,

Sandi McEnergy
