Dear Sir or Madam:

Pacific Crest Corporation hereby declares that models: TDL 450L and ADL Sentry (ADLS) are electrically identical with the same electromagnetic emissions and electromagnetic compatibility characteristics as model: ADL Vantage (ADLV), tested by BACL, the results of which are featured in BACL project: R0907271.

A description of the differences between the tested model and those that are declared similar are as follows:

*TDL 450L differs only in the external label. ADL Sentry does not contain a 6 button membrane keypad and a 16 character x 2 line LCD display on the front panel, which are in both the ADL Vantage (ADLS) and TDL 450L.*

Please contact me should there be need for any additional clarification or information.

Best Regards,

Mark Kuhl  
R&D Engineering Manager
