Phone: 408-732-9162, Fax: 408-732-9164  
<http://www.baclcorp.com>

Dear Sir or Madam:

Pacific Crest Corporation hereby declares that model TDL 450i is electrically identical with the same electromagnetic emissions and electromagnetic compatibility characteristics as model XDL Micro, tested by BACL, the results of which are featured in BACL project: R1105254. Additionally XDL Micro and TDL 450i are marketing names for compliance models: XDLM-0, XDLM-1, and XDLM-2. Pacific Crest Corporation also hereby declares that compliance XDLM-0, XDLM-1 and XDLM-2 are electrically identical with the same electromagnetic emissions and electromagnetic compatibility characteristics as model XDL-Micro, tested by BACL, the results of which are featured in BACL project: R1105254

A description of the differences between the tested model and those that are declared similar are as follows:

*XDLM differs from TDL 450i only in the external label. Additionally, compliance models XDLM-1 and XDLM-2 differ from compliance model XDLM-0 only in that the tuning range of XDLM-1 and XDLM-2 is a subset of the tuning range of XDLM-0.*

Please contact me should there be need for any additional clarification or information.

Best Regards,
