

Description of Operation

The EUT is a **Z-Wave Curtain Control Module**, it ZM3102N(U2) Receiving remote control commands Signal Output, ZM3102N(U2) viaradio frequency to transmit the data to controlunit for two-way communication.

The device adapts **FSK** modulation. And the antenna was a [Wire Antenna](#),

RF Data rate 9.6 kbps / 40kbps

Modulation Frequency Shift Keying (FSK)

Frequency deviation Center frequency 908.42MHZ \pm 20kHz
