**Overview**

The Digital Controls, Inc.'s DucTrak 12 kHz magnetic field transmitter, models DDS 12 and DDT 12, are used to generate a constant 12 kHz tone, which is used to trace the path of existing duct work. The models are identical except for antenna length.

The letter requesting exhibits to be held confidential long term is properly worded.

No short term confidentiality requested.

**Recommendation**

All items have been resolved and completed to my satisfaction; therefore I recommend this application for approval.
