October 27, 2009

To whom it may concern,

We are seeking original certification approval for our 12KHz transmitter (FX) under rule part 15.209. The FCC ID number for this product is KKGFX. This unit is used as the underground low frequency magnetic transmitter for purposes of guiding a horizontal directional drill operation.

Sincerely,

A handwritten signature in black ink, appearing to read 'Rudy Zeller', is written over a horizontal line.
