RE: Savi Technology, Inc.
FCC ID: KL7-65XSP-V2

Tim,

In response to your questions:

- 1) The labeling exhibit just provided is not high enough resolution to clearly read. Please revise.
Revised and uploaded.

- 2) FYI....Please note that pulsed control signals (hello and sleep) do not meet with the 15.231(e) timing limitation requirements as well and are subject to 15.231(a).
Noted.

Sincerely,

A handwritten signature in green ink that reads 'Mark Briggs' in a cursive script.

Mark Briggs
Vice President of Engineering
