3. Production items of the subject equipment are to be manufactured in accordance with either:

an approved Production-Quality Assurance system (Module D)

an approved Product-Quality Assurance system (Module E)

the Product Verification process (Module F) or

the Unit Verification process (Module G) of the Marine Equipment Directive.

In the case of Modules F and G the attending Surveyors will issue the appropriate Certificate of Conformity.

4. Production tests are to be conducted in accordance with the applicable requirements of the Specified Standards and be recorded by the manufacturer in accordance with the selected Conformity Route consisting of this Module B Type Examination certificate plus the Production Module selected from para 3 above. This does not preclude any further testing to additional requirements of the Marine Administration of the country where the carrying ship is registered (i.e. the flag state) or those acting on behalf of that Administration.
5. Should a change of Place of Production from that stated below be required, i.e. where the final stages of manufacture/assembly/testing of this product take place, the new Place of Production is to be advised to us prior to the change taking place. This Certificate will require to be updated for Approval to be maintained.

PLACE OF PRODUCTION

At above manufacturer's facilities.
