

Smartfind S5 AIS SART Declaration

As required by IEC 60945; the McMurdo Ltd Smartfind S5 AIS SART product is required to be tested and to meet the specific test:-

- X-radiation IEC 60945 4.6.3

IEC 60945 stipulates that where a manufacturer can produce evidence that the equipment would satisfy the test then the tests shall be waived.

McMurdo Ltd hereby declares that the Smartfind S5 AIS SART does not contain components or elements such as vacuum tubes, for example cathode ray tubes, magnetrons and TR cells or any radio active devices, which are likely to cause X-radiation and therefore complies with the requirements of IEC 60945 4th Edition 2002-08.

Signed on behalf of McMurdo Ltd.
