Re: Certification for Ford SYNC  
FCC ID: KMHSYNCG2  
IC: 1422A-SYNCG2

**INFORMATION TO BE INCLUDED IN THE END USER'S MANUAL**

The following information (in blue) must be included in the end product user's manual to ensure continued FCC and Industry Canada regulatory compliance. The ID numbers must be included in the manual if the device label is not readily accessible to the end user. The compliance paragraphs (in blue) below must be included in the user's manual.

This device contains a transmitter and antenna that must be installed to ensure a 20 cm separation distance is maintained between all passengers and the transmitter and its antenna.

\*\*\*\*\*

The end user's manual is currently under preparation. **Ford Motor Company** will include the following material in the end user's manual for the commercial product:

FCC ID: KMHSYNCG2

IC: 1422A-SYNCG2

This device complies with Part 15 of the FCC Rules and with RSS-210 of Industry Canada. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

WARNING: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. The term "IC:" before the radio certification number only signifies that Industry Canada technical specifications were met.

The antenna used for this transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
