**Re: FreeWave Technologies, Inc. (Grantee Code: KNY)
Request for New Equipment Identifier
Model Number DGR09RMS**

Dear Mr. Ward:

This letter is to address the concern regarding the compliance of our DGR09RMS spread spectrum limited modular transmitter (FCC ID # KNY-6231812519) with the requirements of the Public Notice DA 00-1407, dated June 30, 2000.

Question. *An LMA will be issued in those instances where the grantee can demonstrate that it will retain control over the final installation of the device such that compliance of the end product is assured. In such a case, an operating condition on the grant of equipment authorization for the module would state that the module is only approved for use when installed in devices produced by a specific manufacturer, typically the Grantee.*

Response. FreeWave confirms that it will exercise control over the final installation of this module, such that compliance of the end product is assured. To do so, FreeWave has instructed its sales department personnel to make sure that devices, in which the DGR09RMS data transceivers are installed in, will not be available for sale to general public. These instructions will be given in writing to sales personnel, who will be required to respond to the instructions with a written acknowledgement.

In addition, FreeWave will provide its customers with antenna installation instructions and transmitter operating conditions for satisfying RF exposure compliance.

FreeWave confirms that the DGR09RMS limited modular transmitter will only be installed in the devices produced by FreeWave Technologies, Inc.

Respectfully undersigned,

A handwritten signature in black ink, appearing to read 'Aleksey Pozhidaev', with a long horizontal flourish underneath.
