FCC COVER LETTER

Federal Communications Commission
445 12th Street SW
Washington, D.C. 20554

ATTENTION: Office of Engineering and Technology

The model presented for authorization is a serial data FHSS Industrial radio that operates in the unlicensed spectrum from 902 MHz to 928 MHz. It employs 2nd level GMSK and it is capable of a throughput of up to 153.6 Kbps.

The purpose of this transmittal is to ask the FCC to grant this new application to the following standards:

47 CFR Part 2 (As applicable)

47 CFR Part 15C (As applicable)

The proposed FCC ID# is KNYAMM0921TT

Sincerely,

A handwritten signature in blue ink, appearing to read "Dean Busch", written over a light blue horizontal line.

Dean Busch
Sr. Compliance Engineer
