Overview

This application is for the certification of a FHSS Industrial radio that operates at 902 - 928 MHz. The radio must be professionally installed and is not available to the public through normal marketing channels. The MPE report shows that the necessary separation distance for safe operation is 23 cm.

Confidentiality requested for allowed files. Request is properly addressed and referenced.

No short term confidentiality requested.

Recommendation

All items have been resolved and completed to my satisfaction; therefore I recommend this application for approval.
