

FCC COVER LETTER

May 21, 2015

Federal Communications Commission
445 12th Street SW
Washington, D.C. 20554

ATTENTION: Office of Engineering and Technology

FreeWave Technologies, Inc. ("FreeWave") hereby applies for a Class II Permissive Change for its transceiver module, which the Commission has certified under FCC ID number KNYPRW1001EC.

With this permissive change, FreeWave seeks to add channel bandwidths: 2.5 MHz, 5 MHz, and 10 MHz to the 5.8 GHz band. These changes are all software controlled and there are no hardware changes.

There will be no additional changes.

FreeWave is submitting new test data with this permissive change application. With regard to Part 2.1043(b)(2) FCC Rules, we confirm that the W5800-01 radio transceiver will not be marketed under the changes requested in this application prior to a grant of the application.

Sincerely,

Dean Busch
Sr. Compliance Engineer
