Re: Declaration of Similarity

FCC ID: KQGRMP60QE

Please be advised that the differences between models RMP60QE and RMP60MQE are a minor mechanical variation to the bottom of the enclosure, allowing for fitment of mechanical adaptors and extensions.

The differences between models RMP60QE and PP60QE are cosmetic only, featuring a different marketing brand.

They can share RF test data because all three models are electronically identical.

Yours faithfully,

Richard Warren
