PHOENIX TEST-LAB GmbH  
Koenigswinkel 10  
D-32825 Blomberg  
Germany

**In reference to FCC ID: KQL-44249AJ**

**Justification for Part 15 Unlicensed Modular Transmitter Approval  
according to DA 00-1407**

1. Own RF shielding  
Complied, see EUT internal photographs
2. Buffered modulation inputs  
Complied, see schematic diagrams
3. Own power supply regulation  
Complied, voltage going to the VCO and PLL is regulated to ensure clean and stable operation
4. Antenna requirements  
Not applicable - integrated antenna
5. Test in stand-alone configuration  
Complied, see test report for details
6. Own FCC ID  
Complied, see labelling instructions in OEM manual
7. The Modular Transmitter must comply with any specific rule and the manufacturer must provide adequate instructions. The EUT is compliant with all applicable FCC rules. Detail instructions are given in the user guide.
8. RF Exposure requirements  
Device is approved under mobile classification and instructions on RF Exposure are listed in the user's manual
