

1 Photo documentation of the test setup

1.1 Field strength of the fundamental wave

1.2 Spurious emissions (magnetic field) 9 kHz – 30 MHz

The test report merely corresponds to the test sample. It is not permitted to copy extracts of these test results without the written permission of the test laboratory.

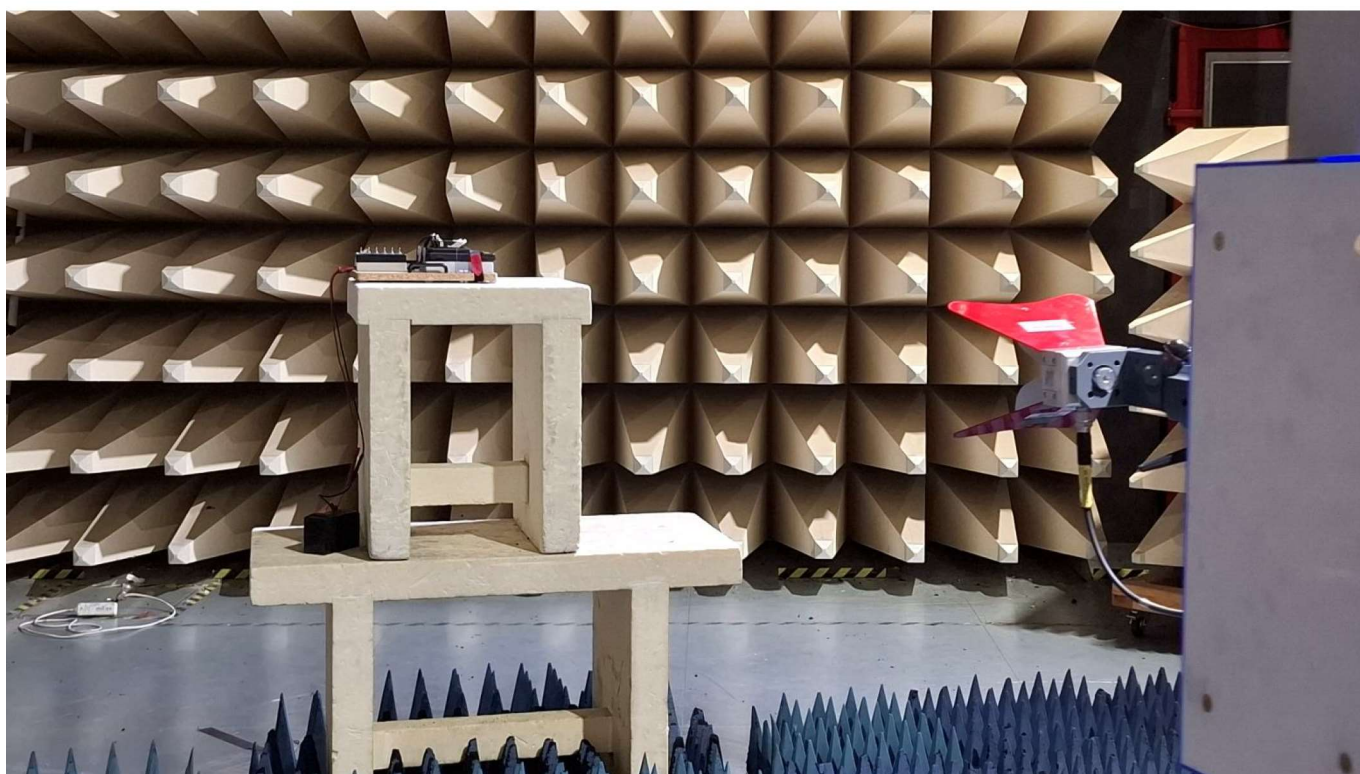

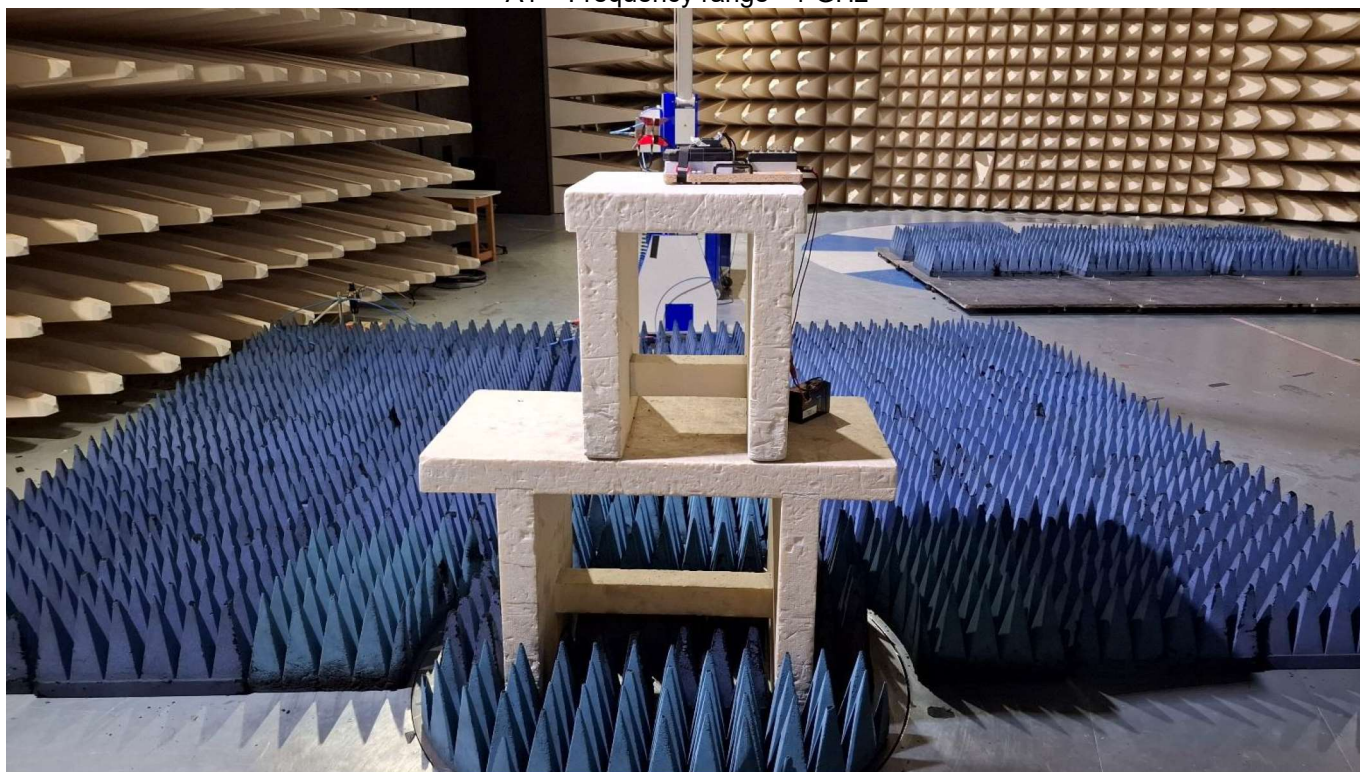

1.3 Spurious emissions radiated (electric field)

OATS1 – Frequency range 30 MHz to 1 GHz

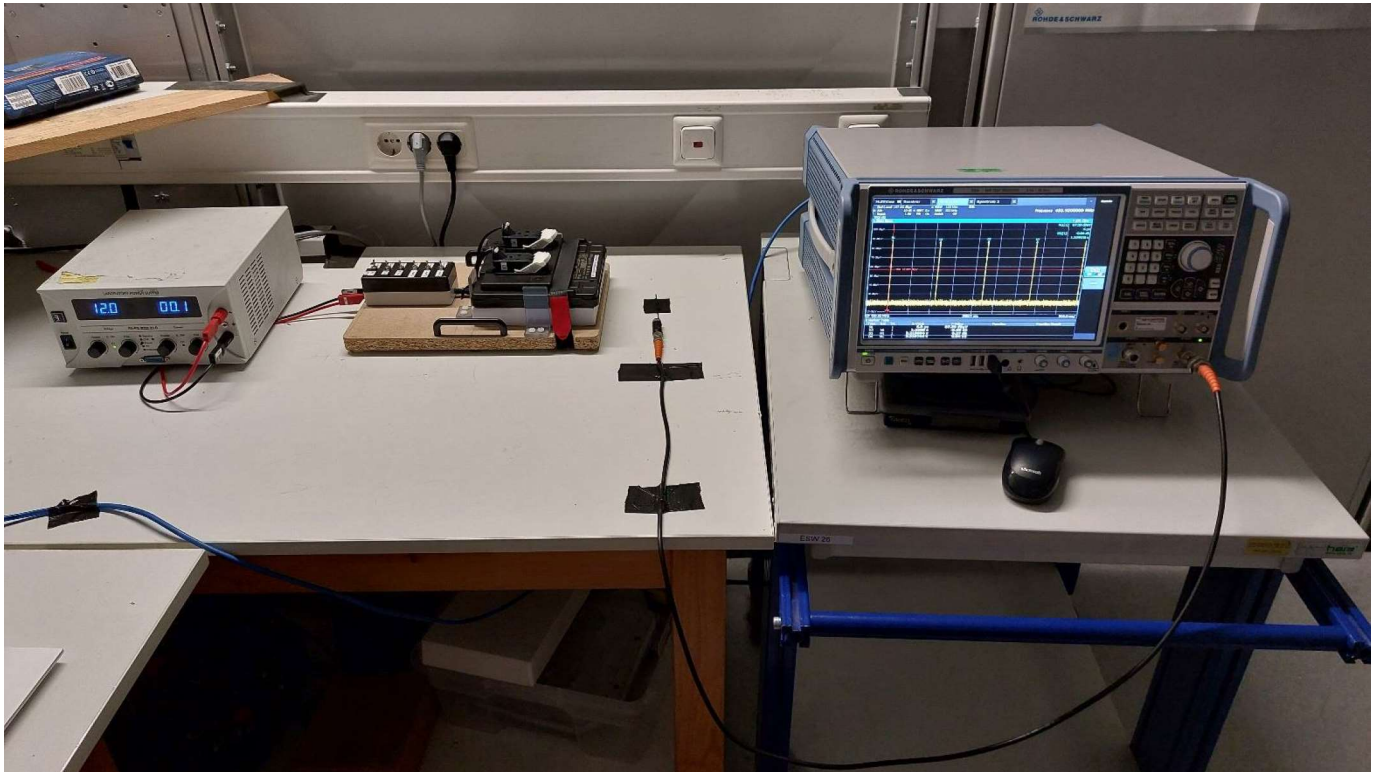

The test report merely corresponds to the test sample. It is not permitted to copy extracts of these test results without the written permission of the test laboratory.

A1 – Frequency range >1 GHz

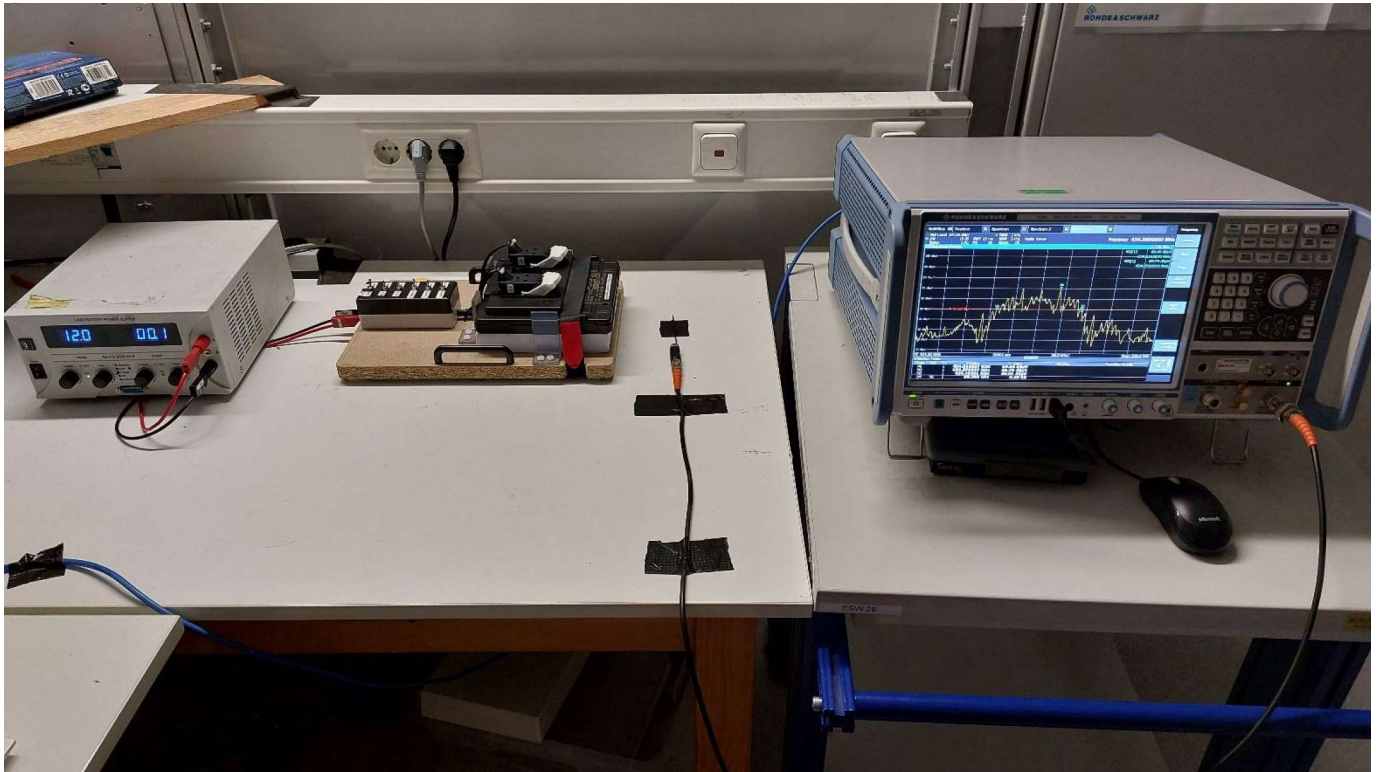

1.4 Correction for pulse operation (duty cycle)

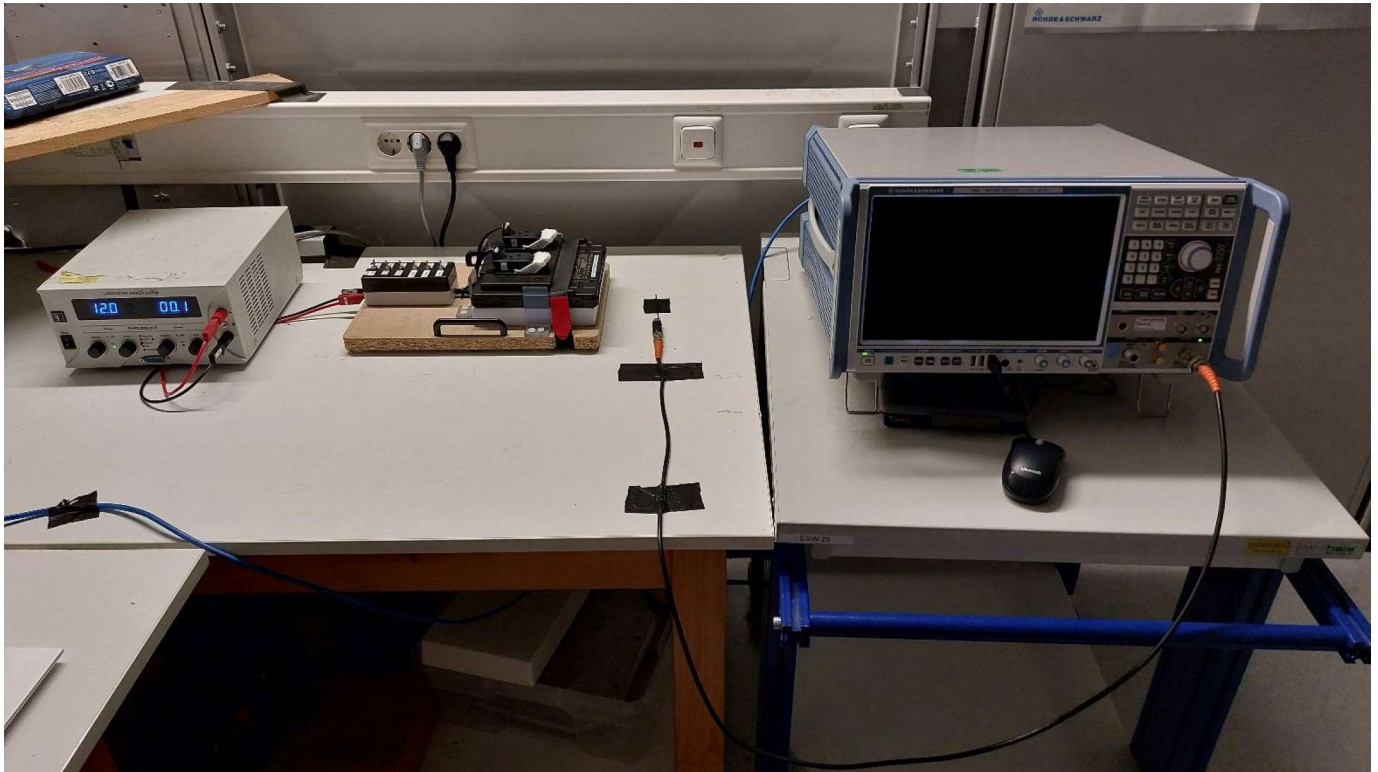

The test report merely corresponds to the test sample. It is not permitted to copy extracts of these test results without the written permission of the test laboratory.

1.5 Emission bandwidth

The test report merely corresponds to the test sample. It is not permitted to copy extracts of these test results without the written permission of the test laboratory.

1.6 Signal deactivation
